1st Semester		
Paper 1 Major Course	**OVERVIEW OF FASHION L-T-P-C: 3-0-0-3 Credits: 3 Scheme of Evaluation: Theory**	**Subject Code: FAS082M101 Level: 100**

Course Objective:

To equip students with knowledge of the foundational concepts of fashion and fashion terminologies. They will learn about the overview of fashion industry which will enhance their sensibility towards fashion, trends and styling and will understand the concept of fashion as a socio-cultural phenomenon.

Course Outcomes:

On successful completion of the course the students will be able to:		
SI No	**Course Outcome**	**Blooms Taxonomy Level**
CLO1	**Identify** the basic terminology of fashion relate to its application, customer types and fashion market segmentation.	**BT Level 1**
CLO2	**Understand** the knowledge of clothing culture, communication and fashion expression.	**BT level 2**
CLO3	**Compare** and help to sketch the idea of 'What is Fashion '.in a broader sense, through a series of moderated lectures, relevant audio visuals and presentations.	**BT Level 3**
CLO4	**Analyze** a simple preview of fashion career which would be useful later in to choose the relevant area of Fashion Career.	**BT Level 4**

Detailed Syllabus:

Modules	**Topics &Subject Contents**	**Periods**	
		L	**P**
UNIT I	**Fashion Terminology:** The Language of Fashion – Introduction to Fashion concept; Fashion - Definitions and meaning, Style, Change, Acceptance, Taste, Fashion Look, Fashion trends, Fashion season; Classification of Fashion. Fashion capitals, Fashion Forecasting agencies, Indian and Western Fashion Designers, Fashion luxury & premium brands.	**15**	
UNIT II	**Fashion Cycles & Fashion Motivation:** Consumer Identification – Fashion leaders, Fashion Innovators, Fashion motivators or Role models, Fashion victims, Fashion followers; Consumer Buying Motivation; Methods of Fashion Selection – Aesthetic Appeal, Color, Texture, Style, Price, Fit, Comfort, Appropriateness, Brand or Designer Label, Fabric performance and care, Quality, Convenience.	**15**	
UNIT III	**Fashion Clothing Categories:** Women's Wear- Dresses, Social apparel, Suits, Outer wear, Sportswear, Active wear, Swimwear, Lingerie, Accessories. Styling – Couture, Designer, Traditional Styling. Size Range - Junior, Missy, Petite, Large or Women. Men's Wear – Tailored, Furnishings,	**15**	

	Sportswear, Active sportswear, Work cloths, Accessories. Styling – Designer Styling, Traditional Styling, Contemporary. Size Range – Men's suits, Dress shirts. Children's Wear – Girl's dress, Boy's Clothing, Sportswear, Swimwear, Outerwear, Sleepwear, Accessories. Styling – Infants, Toddlers and Young children, older children. Size Range – Newborn, Infant, Toddler, Girls', Boys', Body shapes/Imperfect shapes/Plus sizes		
UNIT IV	**Fashion Career Scope - Work Details, Skills Required:** Fashion Designer, Merchandiser, Fashion technologist - Pattern maker, Technical Designer/spec-tech, CAD/Operator, Fashion Research & Development Professionals – Colorist, Fashion Forecaster, Fashion Communication - Fashion Stylist, Fashion Photographer, Fashion Journalist, Fashion Editor. Costume Designer/Coordinator.	**15**	
TOTAL			**60**

Total Credits in the Paper	**Lecture/ Tutorial**	**Studio/Practical**	**Experiential Learning**
3	60 hours	N/A	30 HOURS
			(STUDY TOUR ACTIVITY – make projects on different types of silhouette and body shape Interaction with Prominent personalities)

Text Book:

1. The Dynamics of Fashion; Elaine Stone; 4th Edition; 2015, Bloomsbury Publishing Inc.
2. From Concept to Consumer; Gini Stephens Frings; 6th Edition; 2016; Prentice Hall Career & Technology, New Jersey.
3. Design as Art by Bruno Munari
4.

Reference Books:

1. Inside Fashion Design; Sharon L. Tate & Mona S. Edwards ; 5th Edition; 2014, Pearson Prentice Hall.
2. Design History and the History of Design by Judy Attfield, 1989

1st Semester		
Paper 2 Major Course	**Fashion Design & Process - I L-T-P-C: 0-0-6-3 Credits: 3 Scheme of Evaluation: Practical**	**Subject Code: FAS082M112 Level: 100**

Course Objective: Students will learn about the basic elements of design which will help them understand the terminologies used in the process of designing and will understand colour and its moods. It will help them combine elements and principles of design to create designs and will help them in creating

products or designs based on the principles and elements of design.

Course Outcomes:

On successful completion of the course the students will be able to:		
SI No	**Course Outcome**	**Blooms Taxonomy Level**
CLO1	**Identify** knowledge in foundation of design, its rules, laws, principles that they can use throughout their education and career pursuits.	**BT Level 1**
CLO2	**Understand** the language of design, how to think like a designer.	**BT level 2**
CLO3	**Judging** between good and bad designs and where to go for additional resources of specialised design practice	**BT Level 3**
CLO4	**To calculate** the design thinking and orient themselves towards design as a profession.	**BT Level 4**

Detailed Syllabus:

Modules	**Topics &Subject Contents**	**Periods**	
		L	**P**
UNIT I	Elements of Design: Point, Color, Texture, Line, Silhouette and their varieties and applications in design. Creating composition with the elements of design.	**5**	**15**
UNIT II	Color Theory: color perception, dimensions, Prang color system, Pantone Colors, color wheel, color value scale, grey scale, color schemes.	**6**	**15**
UNIT III	Color psychology, color and emotions, color harmony, color qualities-tint, tone, shade, pastel, light, dark, bright, or vivid, dull, neutral, warm & cool, color philosophy, color, and fashion.	**6**	**15**
UNIT IV	Principles of Design: Balance, Rhythm, Emphasis, Proportion, Harmony	**5**	**15**
TOTAL		**82**

2. Basic Principles of Design;Manfred Maier; vol 1-4; 2016; Fairchild Books.

1st Semester		
Paper 3 Minor Course	**FASHION DESIGN & CONCEPT** **L-T-P-C: 0-0-6-3 Credits: 3** **Scheme of Evaluation: Practical**	**Subject Code: FAS082N114** **Level: 100**

Course Objective: Students will be able to learn about basic concepts of fashion along with colour theory and different types of colour schemes.

Course Outcomes:

On successful completion of the course the students will be able to:		
SI No	**Course Outcome**	**Blooms Taxonomy Level**
CLO1	To **remember** about basic terminologies of fashion	**BT Level 1**
CLO2	To **Gather** knowledge about colour theory.	**BT level 2**
CLO3	**To paint** different schemes of colours	**BT Level 3**
CLO4	To **Illustrate** the colour theory, different schemes of colour with selected pattern.	**BT Level 4**

Detailed Syllabus:

Modules	**Topics &Subject Contents**	**Periods**	
		L	**P**
UNIT I	**Fashion Terminology:** The Language of Fashion – Introduction to Fashion concept; Fashion - Definitions and meaning, Style, Change, Acceptance, Taste, Fashion Look, Fashion trends, Fashion season; Classification of Fashion. Fashion capitals	**6**	**15**

1st Semester		
Paper 4 **SEC**	**Digital Illustration** **L-T-P-C: 0-0-6-3 Credits: 3** **Scheme of Evaluation: Practical**	**Subject Code:** **FAS082S115** **Level: 100**

Course Objective:

The objectives of the subject is to identify current trends in fashion imagery. Schedule, coordinate and prop multiple model shoots and locations and create a studio still life of a fashion or beauty product.

Course Outcomes:

On successful completion of the course the students will be able to:		
SI No	**Course Outcome**	**Blooms Taxonomy Level**
CLO1	To be **Well Versed and Relate** terms in digital designing and understanding of basic designing software – Adobe Photoshop.	**BT Level 1**
CLO2	To **Examine** the Adobe Illustrator application and determine the relationship with other multimedia applications and use Adobe Illustrator as the software to Express computer graphics	**BT level 2**
CLO3	**Apply** fundamental drawing and editing techniques to create simple illustrations.	**BT Level 3**
CLO4	Create Industry-Relevant Artwork and Design Projects Using Adobe Illustrator. **Analyze** the effectiveness and appropriateness of designs for specific purposes.	**BT Level 4**

Detailed Syllabus:

Modules	Topics &Subject Contents	Periods	
		L	**P**
UNIT I	**Introduction:** • Introduction to Adobe Illustrator CS6. • Working with Documents, Making and Saving Selections. • Working with Shapes and Objects. • Working with colour. • Working with outside images. • Applying ll and stroke Using the eye dropper. • Working with pantone chips. • Working with the appearance dialogue box. • Compound paths and building shapes, drawing modes, magic wand, Selection tool, direct selection tool, group selection tool, drawing with path primitives, Rectangle Tool, Ellipse Tool. • Review all other primitive paths apply stroke and fill.	**5**	**15**

	• Work with align dialogue box. • Work with pathfinder dialog box. • Work with grid and snap to grid.		
UNIT II	• Drawing straight paths with the Pen tool. • Drawing curved paths with the Pen tool. • Drawing free form paths with the Pencil tool. • Smoothing and erasing paths. • Editing anchor points, joining and averaging paths -Simplifying paths using Offset tool, Path Cleaning up errant paths, Gradients, Pattern Fills, and Blends Working with outside images Applying fill and stroke using the eye dropper. • Working with pantone chips. • Working with the appearance dialogue box. • Compound paths and building shapes, drawing modes.	**6**	**15**
UNIT III	• Character setting, paragraph setting, Text Threads Setting text on open paths Setting text on closed paths Text to paths, Fill and Stroke Making more than one stroke Changing stroke color and weight through the appearance panel Changing stacking order through the appearance panel. • Color dialogue box (three locations) Gradients Pattern fills Applying pattern fill to a stroke, Art Boards An art board is what Illustrator refers to as a page. Illustrator will print whatever is visible on a page. Artboards can be any size or orientation and can all live in one document together. • Creating artboards through a new document. • Modifying artboards thought the tool bar. Modifying artboards through the artboards dialogue box. Using smart guides to easily align artboards. • Transforming and Positioning Art Moving and copying artwork Scaling or resizing artwork Rotating artwork Reflecting and skewing artwork Using the Free Transform tool Repeating transformations. • Performing individual transforms across multiple objects.	**6**	**15**

	• Aligning objects and groups precisely. • Distributing objects and spaces between objects		
UNIT IV	• Working with images: Placing pixel-based content into Illustrator, Managing images with the Links panel relink go to link update link original Converting pixels to paths with Live Trace blur to get a cleaner trace low resolution les work best. • Making Live Trace adjustments live trace default, threshold tracing options dialogue box Controlling colors in Live Trace modifying color by outputting color to swatches working with pre established swatches. • Working Efficiently with Symbols: Managing repeating artwork with symbols Modifying and replacing symbol instances. • Working with Masks, Cropping photographs, Clipping artwork with masks. Defining masks with soft edges, Printing, Saving, and Exporting	**5**	**15**
TOTAL:		**82**	

National Credit Hours for the course :30 x 3 = 90

Total Credits in the Paper	**Lecture/ Tutorial**	**Studio/Practical**	**Experiential Learning**
3	22 hours	60 hours	8 hours
			(Project on live photography, inside the campus and presentation)

Reference Book :

2. *Adobe Illustrator CC Classroom in a book*, Kordes Kelly, 2018; Adobe Press

1st Semester		
Paper 4 **VAC**	**Material Studies** **L-T-P-C: 0-0-6-3 Credits: 3** **Scheme of Evaluation: Practical**	**Subject Code:** **VAC992V2128** **Level: 100**

Course Objective:

The objective of the subject is to familiarize students with different materials for design exploration and their appropriate use in order to train the students' visual perception, tactile abilities and artistic expression.

Course Outcomes:

On successful completion of the course the students will be able to:		
SI No	**Course Outcome**	**Blooms Taxonomy Level**
CLO1	Students will **Well Versed and Relate** to explore different materialswhich will enhance their creative skills.	**BT Level 1**
CLO2	Student will **Define** to handle various materials in different technical ways.	**BT level 2**
CLO3	They will **understand** the link between the character of materials and their appropriate use.	**BT Level 3**
CLO4	They will **analyze** to choose and handle various material appropriately for different artistic or design purposes.	**BT Level 4**

Modules	**Topics &Subject Contents**	**Periods**	
		L	**P**

UNIT I	1. Paper Mache (use different sources of paper, folding, pattern, cutting, joinery, use of colors etc.), 3D products to be made each supported with a write up of the idea generation, process, and 2D sketch. 2. Plastic wraps & Plastic bottles (collecting of different plastic wraps, folding, cutting, pasting etc.), 3D products to be made each supported with a write up of the idea generation, process, and 2D sketch. 3. Carpentry (wood exploration), 3D products to be made each supported with a write up of the idea generation, process, and 2D sketch.	**6**	**15**
UNIT II	1. Found Objects (use objects like safety pin, chips packets, balloons etc.), 3D products to be made each supported with a write up of the idea generation, process, and 2D sketch. 2. Metal Objects (cutting, joining, application to final products), 3D products to be made each supported with a write up of the idea generation, process, and 2D sketch.	**6**	**15**
UNIT III	3.Understanding the technicalities of a sewing machine and its functionalities	**5**	**15**
UNIT IV	4. Explore different types of stitch lines - straight, curve, circle, zizak etc.; exploration on newspapers, various fabric and materials. 5.Create swatch book of sample exercise	**5**	**15**

Paper I/Subject Name: Introduction to Indian Knowledge System - I
Subject Code: IKS992I101
L-T-P-C – 3-0-0-3
Credit Units: 3
Course Level: 100

Course objectives:
This Foundation course is designed to present an overall introduction to all the streams of IKS relevant to the UG programme. It would enable students to explore the most fundamental ideas that have shaped Indian Knowledge Traditions over the centuries.

Course Outcomes:
On completion of this course students will be expected to –

CO Level	Contents	BT Level
CO_1	**Recall** about the natural endowments	BT level 1
CO_2	**Illustrate** literature of Indian civilization-the Vedic – Itihasas, languages, mathematics, and Ayurveda.	BT level 2
CO_3	**Explain** observation of the motion of celestial bodies in the Vedic corpus	BT level 2

Module	Course Contents	Periods
I	**Bharatavarsha—A Land of Rare Natural Endowments** Demographical features of the ancient Bharatvarsha, Largest cultivable area in the world. Protected and nurtured by Himalayas. The Sindhu-Ganga plain and the great coastal plains. The great rivers of India. Climatic changes: Abundant rains, sunshine and warmth, vegetation, animals and mineral wealth. Most populous country in the world. India's prosperity held the world in thrall. Splendid geographical isolation of India and the uniqueness of Indian culture.	10
II	**Foundational Literature of Indian Civilization:** The Vedic Corpus. The Itihasas— Ramayana and Mahabharata, and their important regional versions. The Puranas. Foundational Texts of Indian Philosophies, including the Jaina and Bauddha. Foundational Texts of Indian Religious Sampradayas, from the Vedic period to the Bhakti traditions of different regions. **i. The Vedangas and Other Streams of Indian Knowledge System**: The Vedic Corpus: Introduction to Vedas and synopsis of the four Vedas and Sub-classification of Vedas; Messages in Vedas; Introduction to Vedāṅgas : Siksha, Vyakarana, Chandas, Nirukta, Jyotisha and Kalpa ; Vedic Life: Distinctive Features. Other streams of Indian Knowledge System such as Ayurveda, Sthapatya, Natyasastra, Dharmasastra, Arthasastra, etc. The Indian way of continuing the evolution of knowledge through commentaries, interpretations and revisions of the foundational texts. The large corpus of literature in Indian languages.	20

	ii. **Indian Language Sciences:** Language Sciences and the preservation of the Vedic corpus. Varnamala of Indian languages based on classification of sounds on the basis of their origin and effort involved. The special feature of the scripts of most Indian languages, that each symbol is associated with a unique sound. Word formation in Sanskrit and Indian languages. Major insights in the Science of Vyakarana as established by Panini. Important texts of Indian Language Sciences — Siksha or phonetics, Nirukta or etymology, Vyakarana or Grammar, Chandas or Prosody. Navyanyaya and Navya-vyakarana in Navadvipa, Varanasi and West and South India. **iii.** **Indian Mathematics:** Numbers, fractions and geometry in the Vedas. Decimal nomenclature of numbers in the Vedas. Zero and Infinity. Simple constructions from Sulba-sutras. The development of the decimal place value system which resulted in a simplification of all arithmetical operations. Linguistic representation of numbers. Important texts of Indian mathematics. Brief introduction to the development of algebra, trigonometry and calculus. How Indian mathematics continued to flourish in the 18/19/20th centuries. Kerala School. Ramanujan.	
III	**Indian Astronomy**: Ancient records of the observation of the motion of celestial bodies in the Vedic corpus. Sun, Moon, Nakshatra & Graha. Astronomy as the science of determination of time, place and direction by observing the motion of the celestial bodies. The motion of the Sun and Moon. Motion of equinoxes and solstices. Elements of Indian calendar systems as followed in different regions of India. Important texts of Indian Astronomy. Basic ideas of the planetary model of Aryabhata and its revision by Nilakantha. Astronomical instruments. How Indian astronomy continued to flourish in the 18/19th centuries. Astronomical endeavours of Jaisingh, Sankaravarman, Chandrasekhara Samanta.	15
IV	**Indian Health Sciences:** Vedic foundations of Ayurveda. Ayurveda is concerned both with maintenance of good health and treatment of diseases. Basic concepts of Ayurveda. The three Gunas and Three Doshas, Pancha-mahabhuta and Sapta-dhatu. The importance of Agni (digestion). Six Rasas and their relation to Doshas. Ayurvedic view of the cause of diseases. Dinacharya or daily regimen for the maintenance of good health. Ritucharya or seasonal regimen. Important Texts of Ayurveda. Selected extracts from Astāngahrdaya (selections from Sūtrasthāna) and Suśruta-Samhitā (sections on plastic surgery, cataract surgery and anal fistula). The large pharmacopeia of Ayurveda. Charaka and Sushruta on the qualities of a Vaidya. The whole world is a teacher of the good Vaidya. Charaka's description of a hospital. Hospitals in ancient and medieval India. How Ayurveda continued to flourish till 18/19th centuries. Surgical practices, inoculation. Current revival of Ayurveda and Yoga.	15

Subject Name: Behavioural Sciences -1UG 1st semester

Course code:BHS982A102

Credit: 1

Course objectives: To increase one's ability to draw conclusions and develop inferences about attitudes and behaviour, when confronted with different situations that are common in modern organizations.

Course Outcomes: On completion of the course the students will be able to :

CO1: Understand self & process of self exploration

CO2: Learn about strategies for development of a healthy self esteem

CO3: Apply the concepts to build emotional competencies.

Detailed Syllabus:

Modules	Course Contents	Periods
I	**Introduction to Behavioral Science** Definition and need of Behavioral Science,Self: Definition components, Importance of knowing self, Identity Crisis,Gender and Identity, Peer Pressure, Self image: Self Esteem, Johari Window ,Erikson's model.	4
II	**Foundations of individual behavior** Personality- structure, determinants, types of personalities. Perception: Attribution, Errors in perception. Learning- Theories of learning: Classical, Operant and Social	4
III	**Behaviour and communication.** Defining Communication, types of communication, barriers to communication, ways to overcome barriers to Communication, Importance of Non-Verbal Communication/Kinesics, Understanding Kinesics, Relation between behaviour and communication.	4
IV	**Time and Stress Management** Time management: Introduction-the 80:20, sense of time management, Secrets of time management, Effective scheduling. Stress management: effects of stress, kinds of stress-sources of stress, Coping Mechanisms. Relation between Time and Stress.	4
Total		**16**

2nd Semester		
Paper 1 Major Course	**Fashion Design & Process - II** **L-T-P-C : 0-0-6-3 Credits : 3** **Scheme of Evaluation : Practical**	**Subject Code: FAS082M213** **Level : 100**

Course Objective:

The objectives of the subject is to introduce students to the different stages in the design process – from perception of a problem to generating a solution to the problem through investigation, analysis and synthesis and deals with the study of the basic styles and the optical illusion they create the identification of styles – when, where and how to use.

Course Outcomes:

On successful completion of the course the students will be able to :		
SI No	**Course Outcome**	**Blooms Taxonomy Level**
CLO1	To **Define** the design process and develop basic design attitudes and skills, which is required to become a design professional, who is a creative thinker having developed perceptual abilities. The students will also be enhancing their Sketching skills by practising Necessary illustration.	**BT Level 1**
CLO2	To **Understand** an overview of the process of design and Sketching different fabrics and materials that are required in a proper Fashion Illustration.	**BT level 2**
CLO3	To **Implement** the idea of Design Process and Illustration in design based Collection which will later on help to enhance their portfolio.	**BT Level 3**
CLO4	To **Organise** a collection of Apparel that introduce the design process and detailed Fashion Illustrations.	**BT Level 4**

Detailed Syllabus:

Modules	**Topics &Subject Contents**	**Periods**	
		L	**P**
UNIT I	Understanding the concept of design process categorized into three stages of analysis, synthesis, and evaluation. Mind mapping, techniques of idea generation, design exploration. Process book development. Selection of theme; create theme Board, depict the inspiration by creating Mood Board digitally.	**6**	**15**
UNIT II	Identify colors based on theme and create Color Board. Create an imaginary client and create a Client Board. Drawing body details with different movements. Drawing arms, legs, feet, palm, & different positions. Market sourcing for Swatch Board- Fabric & Trims	**6**	**15**
UNIT	Drawing different face positions such 3/4th, front, side. Facial details like eyes, nose, and lips. Rendering different fabrics to study their fall, fold, drape etc. Prints, stripes, Checks,	**5**	**15**

III	fur, Denim, leather, Leather, suede, velvet, silk, wool, embroidered fabric etc. Combining various garment details like silhouettes, lengths, drapes, folds, motion & shadows etc. for various Fabrics detailing and understanding the way fabric falls onto body.		
UNIT IV	Drawing various Fashion elements to form a garment such as, types of sleeves, necklines, pockets, cuffs, collars, yokes, waist bands, bows & ties, frills & flounces etc. Drawing and combining different Fashion elements on a Fashion figure to make a good Design.	**5**	**15**
TOTAL		**82**	

National Credit Hours for the course :30 x 3 = 90

Total Credits in the Paper	Lecture/ Tutorial	Studio/Practical	Experiential Learning
3	22 hours	60 hours	8 hours
			(Project on illustration based on chosen theme)

Text Book:

1. Fashion thinking: Creative approach to the Design Process; Dieffenbacher Fiona; 2013; Bloomsburry publishing India Pvt Ltd.

2nd Semester		
Paper 2 Major Course	**History of Fashion** **L-T-P-C : 3-0-0-3 Credits : 3** **Scheme of Evaluation : Theory**	**Subject Code: FAS082M202** **Level : 100**

Course Objective:

Students will learn the appropriate vocabulary to describe costume and the influence of culture, art and history on trends and to the various facts fashion and about the ancient western costumes and will develop thorough understanding of history of fashion.

Course Outcome :

On successful completion of the course the students will be able to :		
SI No	**Course Outcome**	**Blooms Taxonomy Level**
CLO1	**Define** the characteristic styles of each century, thereby enabling them to accurately describe the images.	**BT Level 1**
CLO2	**Discuss** the influence of culture, art and history on trends and to the various facts fashion can have in an Indian & western society.	**BT level 2**
CLO3	**Sketch** out different traditional woven textiles of different states of India.	**BT Level 3**
CLO4	**Outline** the Established an in-depth knowledge about Traditional Textile of India as well as other countries which will later help them as a Designer.	**BT Level 4**

Detailed Syllabus:

Modules	**Topics &Subject Contents**	**Periods**	
		L	**P**
UNIT I	Study on Ancient Indian costumes- Indus Valley civilization, indo Aryan & Vedic Age, Muryan& Sunga period Medieval Indian costumes- Satvahana& Kushan Period, Gupta Period, Mughal Period; Costumes during the rule of British. Presentations and documentation. Ancient western costumes, Renaissance & Victorian period. Presentations and documentation.	15	
UNIT II	Textiles& costumes of different states of India with special emphasis on textiles and costumes of northeast. Presentations and documentation. Western costumes of the modern world-1900s to 2000s. Presentations and documentation.	15	
UNIT III	Introduction - Definition of textile fibers, classification of Textile fibers; Desirable properties of an Ideal Textile fiber– Staple fiber, filament; Natural Cellulosic Fibers - Seed hair fibers- Cotton, Kapok, Coir. Bastfibers- Flax, Ramie, Jute, Kenaf, and Hemp, Leaf fibers; Natural Protein Fibers - Animal hair fibers- Wool, Specialty hair fibers, Silk- Sericulture and type of silks. Natural Mineral Fibers, Manmade Synthetic Fibers – Polyamides - Nylon, Types of Nylon- Nylon-6 and Nylon-66, Polyesters, Varieties of Polyester, Acrylic, Modacrylics, Elastomers – Rubber, Spandex; Manmade Regenerated Fibers- Viscose Rayon, Cuprammonium Rayon, Identification of Textile Fibers (Practical testing). The Textile Yarns- Definition of yarns, Classification of yarns; Yarn Manufacturing – Yarn from staple fibers –Fiber preparation - Ginning, Spinning, Alternate spinning process – Rotor air jet, Friction, Twisters spinning, Self-twist spinning, Yarn without twist. Filament yarns: manufacturing techniques – Twisted & Textured filaments,	15	
UNIT IV	Properties of yarns – Yarn count or yarn number – Indirect system, Direct system. Yarn torque – S twist, Z twist, Flexibility. Types of Yarns- Simple and complex yarns, Types of complex yarns, Textured Yarns. Fiber Blends- General characteristics, Production. Threads - Difference between thread and yarn, Sewing threads- Types and properties. The Overview of Textile Industry- Introduction to textiles; Major segments of the textile	15	

	industry; Market planning for apparels; Primary and secondary sources of fabric buying and selling of finished fabric. Indian & Western textile market.

Course Title: Indian Textile Traditions **Course Code: VAC992V1126**

Course Level: 100 **Total Credits:** 3

L-T-P-C: 1-0-4-3 **Scheme of Evaluation:** Practical

Course Objective: To explore and understand the diverse textile traditions across various regions of India, including their historical, cultural, and social significance**.**

Course Outcomes:

On successful completion of the course the students will be able to:

CO Level	Course Outcome	Blooms Taxonomy Level
CO1	Students will be able to identify various traditional Indian textiles and fabrics, gaining comprehensive knowledge of their unique characteristics, cultural significance, and traditional production methods.	**BT Level 1**
CO2	Students will be able to explain the various techniques used to create traditional Indian textiles, demonstrating an understanding of the distinct methods employed in weaving, dyeing, printing, and embroidery across different regions.	**BT level 2**
CO3	Students will be able to apply practical training to develop innovative textile and fabric designs.	**BT Level 3**

Course Contents:

- **Unit 2 (12 Periods) –**
  - Basic Textile Weaves
  - Study of Indian Textiles (Ikat,Kalamkari, Banarsi Brocade,Kanjeevaram ,Patola,Baluchari, Jaamdani, Arjakh ,Brocade of Assam)
  - Overview of Indian Dying and printing process (Bandhni and Block print)
- **Unit 3 (12 Periods) –**
  - Over View of Indian Surface work(Embroidery)
  - State embroideries (Kantha, Kashida, Phoolkari, Chikan kaari)

Modules	Topics &Subject Contents	Periods	
		L	**P**
UNIT I	History of Indian Textile Ancient Textile Trade of India Costumes and Textile of Royal India, British India Basic Textile Weaves Study of Indian Textiles (Ikat,Kalamkari, Banarsi Brocade,Kanjeevaram ,Patola,Baluchari, Jaamdani, Arjakh ,Brocade of Assam)	**6**	**15**
UNIT II	Basic Hand & Surface Embroidery Stitches- Run stitch, chain stitch, back stitch, satin stitch, bullion knots, French knot, herringbone stitch, blanket stitch, long & short. Quilting, patchwork, appliqué. **Introduction to fabric decoration- Mirror Work -** Mirror work places of India, Types of mirrors, stitches and designs. **Bead Works** – Definition, Bead work places of India, Articles, materials and stitches used for bead work.	**6**	**15**

UNIT III	Hand Embroideries & cultural textiles of Different states of India with special emphasis on surface techniques and textiles of North East India. **Metal thread embroidery -** Definition, Metal thread embroidery places of India, Articles, materials and stitches used for Metal thread embroidery. Fabric manipulation: **Smocking –** Definition, stitches used for smocking – Honey comb smocking.	**5**	15
UNIT IV	**Dye & Print Artistry** - Tie & Dye, Textile Natural & Chemical Dyeing, Batik, Stencil, Screen Printing, Hand Block Printing **Indian Hand-Painted Artistry** – Pichvai of Rajasthan, Pad of Rajasthan, Kalamkari of Andhra Pradesh, Patachitra of Orissa	**5**	15

Paper II/Subject Name: Introduction to Indian Knowledge System - II
Subject Code: IKS992K201
L-T-P-C – 3-0-0-3
Credit Units: 3
Course Level: 100

Course objectives:

This Foundation course is designed to present an overall introduction to all the streams of IKS relevant to the UG programme. It would enable students to explore the most fundamental ideas that have shaped Indian Knowledge Traditions over the centuries.

Course Outcomes:

On completion of this course students will be expected to –

CO Level	Contents	BT Level
CO_1	**Recall** about classical literature in Sanskrit and other languages	BT level 1
CO_2	**Recall** traditional Indian knowledge system and Indian education	BT level 1
CO_3	**Summarize the Indian** Art, Architecture, Agriculture, Polity and Economy	BT level 2

Module	Course Contents	Periods
I	**Classical Literature in Sanskrit and Other Indian Languages**: The nature and purpose of Kavya. Drisya and Sravya Kavyas. The ideas of Indian aestheticians on what constitutes the soul of Kavya. Important examples of classical literature in Sanskrit and other Indian languages **Indian Education**: Preservation of culture, tradition and Dharma through education. Svadhyaya, Pravachana. Also continuity of the family and the vamsha, who are the carriers of knowledge, tradition and Dharma. The extent, inclusiveness and the sophistication of indigenous education in early19th century India. **The Purpose of Knowledge in India**: Para Vidya and Apara Vidya. The corpus connected with Para Vidya. Learning and formalization of concepts associated with Para Vidya also form part of	10

	Apara. Apara Vidya. Nature and purpose of sciences, technologies, and all human knowledge concerning the world and the society. The concept of Rita, Dharma. The cycle of mutual dependence of humans and all aspect of creation. Yajna and the inviolable discipline of sharing and caring.	
II	**Methodology of Indian Knowledge System**: Systematization of knowledge fields as Sastra. Each Sastra has a clearly defined purpose in Vyavahara. The means of valid knowledge (Pramanas). Perception (Pratyaksha), Inference (Anumana) and Textual Tradition (Agama), as discussed in the canonical texts of all the disciplines. The importance of Pratyaksha and Agama in relation to Anumana. **Indian Architecture and Town Planning**: The importance of Sthapatya-veda. The ancient cities of the Indus Saraswati region. Town planning and drainage systems. Examples of the significance of architecture and materials in Ramayana and Mahabharata. Public opulence and private austerity in Indian architecture. Why there are many more of Temples than Palaces. Important texts of Architecture and Sculpture. The prevalence of high Indian architecture in almost all parts of India except the Ganga plains. Examples of high Indian architecture from ancient and medieval periods from different parts of India. The building of Jaipur in the 18th century. How temple art and architecture continue to flourish in modern India. **Indian Fine Arts:** The importance of Gandharva-veda. Natyasastra on the nature and purpose of fine arts. Basic concepts of Indian music and dance. Important texts of Indian music, dance and painting. Indian musical instruments. Different schools of music, dance and painting in different regions of India. Important examples of Indian painting in various part of India. Musicology as a science. Harmonising Lakshya and Lakshana (practise and theory). Major developments in the science and practice of music the 17/18/19th centuries. The current revival of music and dance in India.	20
III	**Indian Agriculture**: The significance of agriculture and irrigation as emphasised in the Ramayana, Mahabharata and other texts. Mention of Indian agriculture by the Greek historians and later travellers. Significance of agriculture and irrigation for the kings of Indian tradition. Major water-bodies of the ancient times. The Ery system of south India. Excellence of Indian agricultural technologies as observed by more recent European observers. Productivity of Indian agriculture in medieval Thanjavur and eighteenth century Allahabad, Chengalpattu, etc. Indian attitude towards agriculture, based on Walker and later reports. **Indian Textiles**: India as the ancient home of cotton and silk fabrics. Weaving formed the most significant part of Indian economy after agriculture. Varieties of textiles and dyes developed in different regions of India. India as a leading exporter of textiles in the world in the 17/18/19th centuries. **Indian Metallurgy:** Vedic references to metals and metal working. Mining and manufacture in India of Zinc, Iron, Copper, Gold, etc., from ancient times. Indian texts which refer to metallurgy. Important specimens of metal workmanship preserved/found in different parts of India. The significance and wide prevalence of ironsmith and	15

	other metal workers in the pre-modern era. European observers on the high quality and quantity of Indian iron and steel in the 18/19th centuries.	
IV	**Indian Polity and Economy**: Indian conception of well-organised Polity and flourishing Economy as expounded in the foundational texts. The notion of Bharartavarsha as a Chakravarti-Kshetra and important attributes of Chakravartin. King as the protector of Dharma. King as the strength and support of the weak. King as the protector of Varta. King as the protector of the times. Meaning of Varta: Krishi, Gopalana and Vanijya forming the basis of Varta and the core of economic activity in society. The importance of sharing. Grama as the centre of the polity. **The Outreach of Indian Knowledge System**: The outreach of Indian Knowledge System beyond Indian boundaries forms the ancient times. Outreach to East, Southeast, Central and Southeast Asia of Indian phonetic script, decimal value place system-based arithmetic, algebra, astronomy and calendar, medical pharmacopeia, architecture, methods of making iron and steel, cotton textiles, etc. The transmission of Indian linguistics, knowledge of plants, iron and steel metallurgy, textiles and dyeing, shipbuilding etc., to Europe in 17/18/19th centuries. Current global outreach of Ayurveda, Yoga and Indian Fine Arts.	15

COURSE PROGRAMME: Under Graduate (All courses under RGU) SEMESTER:

Second SUBJECT: Communicative English- II: Conversation and Public Speaking

L-T-P-C-1-0-0-1SubjectCode:CEN982A201

CourseObjective:

This course prepares students for a variety of academic and other situations in which formal presentations are required. Topics will include cultural conventions and speech, perceptions of others, and techniques of oral presentation and persuasion. Students will learn how to research, outline, and deliver short, informal presentations as well as longer speeches. This course will give them the opportunity to develop and strengthen skills in preparing and presenting public oral presentations in a variety of situations.

DetailedSyllabus:

Modules	Topics/Coursecontent	Periods
I.	**SpeakingSkills** Speaking–TheArtofSpeaking,Goals,SpeakingStyles,TheSpeakingProcess Importance of Oral Communication, Choosing the form of Communication, Principles & Guidelines of Successful Oral Communication, Barriers to Effective Oral CommunicationThreeaspectsofOralCommunication–Conversing,ListeningandBodyLanguage Intercultural Oral Communication	4

Subject Name: Behavioural Sciences –II UG 2nd semester
L-T-P-C-1-0-0-1

Course code:BHS982A202

Course objectives: To increase one's ability to draw conclusions and develop inferences about attitudes and behaviour, when confronted with different situations that are common in modern organizations.

Course outcomes: On completion of the course the students will be able to:
CO 1: Develop an elementary level of understanding of culture and its implications on personality of people.
CO2: Understand the concept of leadership spirit and to know its impact on performance of employees.
CO3: Understand and apply the concept of Motivation in real life.

Modules	Course Contents	Periods
I	**Culture and Personality** Culture: Definition, Effect, relation with Personality, Cultural Iceberg, Overview of Hofstede's Framework, Discussion of the four dimensions of Hofstede's Framework.	**4**
II	**Attitudes and Values** Attitude's definition: changing our own attitudes, Process of cognitive dissonance Types of Values, Value conflicts, Merging personal and Organisational values	**4**
III	**Motivation** Definition of motivation with example, Theories of Motivation (Maslow, McClelland's theory& Theory X and Y)	**4**
IV	**Leadership** Definition of leadership, Leadership continuum, types of leadership, Importance of Leadership, New age leaderships: Transformational & transactional Leadership, Leaders as role models.	**4**

Minor Paper II	**Fashion Illustrations** **L-T-P-C: 1-0-0-4 Credits: 3** **Scheme of Evaluation: Practical**	**Subject Code: FAS082N514** **Level: 300**

Course Objective:

To enhance students' creative thinking and observational skills through traditional drawing techniques, with a focus on perspective and spatial understanding. They will also explore the role of color in design and develop an appreciation for its application in visual expression.

Course Outcome:

On successful Completion of the course the students will be able to :		
CO Level	**Course Outcome**	**Blooms Taxonomy Level**
CO1	To **Recollect and Relate** the basic ideas of visualisation of different shapes and putting them in the concept of fashion garments.	**BT Level 1**
CO2	To **Gather and Sketching** figures by using different illustration techniques and explores other media for creating concepts through practical assignments.	**BT level 2**
CO3	To **Construct**different stylized croquis for fashion illustrations based on different themes	**BT Level 3**
CO4	To **Analyse** role of Fashion Illustration and Visualisation	**BT Level 4**

Modules	**Topics &Subject Contents**	**Periods**	
		L	**P**
UNIT I	Understanding Inch Increments: Introduction to ruler measurements in inches, including recognition and usage of increments such as 1/16, 1/8, 1/4, 1/2, and full inches with practical examples.	**6**	**15**
UNIT II	Pencil Grades and Shading Techniques: Understanding pencil grades and their applications in drawing. Practice various shading techniques, create reference charts, and develop a composition using different shading styles.	**6**	**15**

UNIT III	2D and 3D Shapes :Introduction to 2D and 3D shapes, their definitions, and properties. Practice drawing basic geometric forms such as circles, squares, triangles, cubes, spheres, and cylinders.	**5**	15
UNIT IV	Drawing Female Block Figures **:**Learn to draw 8-head, 10-head, and 12.5-head female block figures (front and back), understand figure fleshing, and develop female croquis for fashion illustration.	**5**	15

Paper 1 Major Course	**Study on Textiles** **L-T-P-C: 0-0-6-3 Credits: 4** **Scheme of Evaluation: Practical**	**Subject Code: FAS082M311** **Level: 100**

Course objective:

Course Outcome:

On successful completion of the course the students will be able to:		
SI No	**Course Outcome**	**Blooms Taxonomy Level**
CLO1	**Discuss** the basic knowledge of the Textile industry and identify behavioral characteristics of various fibers and yarns in relation to their application and end use and R**ecall** various techniques used to impart various decorative skills on fabric through practical exercises.	**BT Level 1**
CLO2	**Identify** different types and weaves of fabrics, behavioural characteristics of various fibres and fabrics. They will **Develop** samples that provide an understanding of basic techniques used in handling fabric.	**BT level 3**
CLO3	**Choose** fabrics with knowledge of the properties of Yarns and Fabric. They will be able to **Practice** an understanding of basic techniques used in handling fabric.	**BT Level 3**
CLO4	**Testing** fabrics and will be able to interpret technical aspects of textiles. By **Planning and Organizing**a portfolio, the students will acquire skills of different techniques of surface ornamentation.	**BT Level 4**

Detailed Syllabus:

Modules	**Topics &Subject Contents**	**Periods**	
		L	**P**
UNIT I	Introduction - Definition of textile fibers, classification of Textile fibers; Desirable properties of an Ideal Textile fiber– Staple fiber, filament; Natural Cellulosic Fibers - Seed hair fibers- Cotton, Kapok, Coir. Bastfibers- Flax, Ramie, Jute, Kenaf, and Hemp, Leaf fibers; Natural Protein Fibers - Animal hair fibers- Wool, Specialty hair fibers, Silk- Sericulture and type of silks. Natural Mineral Fibers, Manmade Synthetic Fibers –Polyamides - Nylon, Types of Nylon- Nylon-6 and Nylon-66, Polyesters, Varieties of Polyester, Acrylic, Modacrylics, Elastomers – Rubber, Spandex; Manmade Regenerated Fibers- Viscose Rayon, Cuprammonium Rayon, Identification of Textile Fibers (Practical testing). The Textile Yarns- Definition of yarns, Classification of yarns; Yarn Manufacturing – Yarn from staple fibers –Fiber preparation - Ginning, Spinning, Alternate spinning process – Rotor air jet, Friction, Twisters	**6**	**15**

	spinning, Self-twist spinning, Yarn without twist. Filament yarns: manufacturing techniques – Twisted & Textured filaments,		
UNIT II	Properties of yarns – Yarn count or yarn number – Indirect system, Direct system. Yarn torque – S twist, Z twist, Flexibility. Types of Yarns- Simple and complex yarns, Types of complex yarns, Textured Yarns. Fiber Blends- General characteristics, Production. Threads - Difference between thread and yarn, Sewing threads- Types and properties. The Overview of Textile Industry- Introduction to textiles; Major segments of the textile industry; Market planning for apparels; Primary and secondary sources of fabric buying and selling of finished fabric. Indian & Western textile market.	**6**	**15**
UNIT III	Introduction to fabric decoration- Mirror Work - Mirror work places of India, Types of mirrors, stitches and designs. Bead Works – Definition, Bead work places of India, Articles, materials and stitches used for bead work. Metal thread embroidery - Definition, Metal thread embroidery places of India, Articles, materials and stitches used for Metal thread embroidery. Fabric manipulation: Smocking – Definition, stitches used for smocking – Honey comb smocking.	**5**	15
UNIT IV	Basics of Fabric Embellishment: Dye & Print Artistry - Tie & Dye, Batik, Stencil, Screen, Block Printing. (Practical)Indian Hand-Painted Artistry – Pichvai of Rajasthan, Pad of Rajasthan, Kalamkari of Andhra Pradesh, Patachitra of Orissa. (Theory)	**5**	15

SEC – I Course	**Fashion Design & Process - III** **L-T-P-C: 0-0-6-3 Credits: 3** **Scheme of Evaluation: Practical**	**Subject Code: FAS082S315** **Level: 100**

Course objective:

The objectives of the subject is to introduce students to the different stages in the design process – from perception of a problem to generating a solution to the problem through investigation, analysis and synthesis. The subject willsensitize and orient students towards visual skills through observation, experience, perception and representation.

Course Outcome:

On successful completion of the course the students will be able to:		
SI No	**Course Outcome**	**Blooms Taxonomy Level**
CLO1	They will develop theability to reconsider concepts, ideas, design issues and evaluate them. They will also develop theability to transmit ideas through different medium.	**BT Level 1**
CLO2	Develop the level of understanding and comprehension, linking new learning to the existing knowledge for better organization of information.	**BT level 3**

	Ability to understand concepts comprehensively, remember and articulate them.	
CLO3	Students will learn to illustrate detailing of fabrics on a fashion figure. They will learn to render fabrics to give a realisticappeal.	**BT Level 3**
CLO4	They will learn how to develop a collection and create a design portfolio	**BT Level 4**

Detailed Syllabus:

Modules	**Topics &Subject Contents**	**Periods**	
		L	**P**
UNIT I	Trend forecasting and its types, selection of target market, developing style directions basedon selected market trends. Create a process book for idea generation/designs/techniques	**6**	**15**
UNIT II	Create 10 technical sketches- detailed with trims, seams lines etc Design a range of 5 ensemble based on the selected theme. Create a design portfolio.	**6**	**15**
UNIT III	Rendering of different fabric types- velvet, denim, chiffon, net, sheer fabric, silk, suede, fur,leather, knits Rendering of prints- plaids, floral, animal prints etc	**5**	15
UNIT IV	Flat sketch of garments Ensemble illustration on fashion figure. Create a design portfolio	**5**	15

Paper 3 **IDC** **Course**	**Fashion Styling and Photography** **L-T-P: 0-0-6 Credits: 3** **Scheme of Evaluation: Practical**	**Subject Code:** **FAS082I314** **Level: 200**

Course Outcome:

This course introduces students to the fundamentals of Fashion Styling and Fashion Photography through an integrated approach combining theoretical knowledge with practical application. Students will develop an understanding of styling principles, fashion trends, wardrobe planning, photography techniques, and editorial design while creating an individual fashion magazine. The course encourages creativity, visual storytelling, critical thinking, and professional portfolio development through styling projects, photography assignments, and editorial production.

Course Objective:

On successful completion of the course the students will be able to:		
CO Level	Course Outcome	Blooms Taxonomy Level
CO1	**Explain** the fundamentals of fashion styling, fashion photography, fashion trends, wardrobe styling, body types and fashion silhouettes.	BT Level 1
CO2	**Describe** and interpret different fashion styling categories, photography genres, colour theory, fashion accessories, and editorial concepts for fashion communication.	BT level 2
CO3	**Apply** fashion styling principles, photography techniques, wardrobe planning, product photography and editorial layouts to create professional visual content.	BT Level 3
CO4	**Develop** and present an original fashion magazine by integrating styling, photography, creative writing, visual storytelling and magazine design into a cohesive portfolio.	BT Level 4

Detailed Syllabus:

Modules	Topics &Subject Contents	Periods	
		L	P
I.	Introduction to Fashion Styling & Editorial Planning - Introduction to Fashion Styling: Definition, importance and role of a fashion stylist. Types of Fashion Styling: Editorial, Commercial, Celebrity, Personal, Costume, Runway, E-commerce and Visual Merchandising. Introduction to fashion magazines, editorial planning, magazine branding, cover design, mood boards and vision boards.	6	15
II.	Fashion Photography, Fashion Trends & Wardrobe Styling - Types of Fashion Photography: Editorial, Commercial, Portrait, Product, Street, Lifestyle, Beauty and Runway photography. Fashion Trends: Trend forecasting, international and Indian fashion trends, seasonal trends. Wardrobe Styling: Capsule wardrobe, wardrobe essentials, sustainable fashion and mix-and-match styling.	5	15
III.	Body Types, Fashion Styling Techniques & Product Photography - Body Types, Fashion Styling Techniques & Product Photography - Body types and suitable fashion silhouettes. Fashion accessories and colour theory. Fashion illustration and styling for different body types. Product photography, composition, lighting and advertising photography.	6	15
IV	Fashion Editorial, Fashion Writing & Magazine Production - Fashion editorial photography and creative direction. Fashion journalism, feature writing and fashion icons. Street style photography and behind-the-scenes documentation. Magazine design, layout, publishing and presentation of the final fashion magazine.	5	15

Paper 2 Major Course	**Pattern Making & Garment Construction - II** **L-T-P-C: 0-0-6-3 Credits: 4** **Scheme of Evaluation: Practical**	**Subject Code: FAS082M412** **Level: 100**

Course objective:

The objective of the subject is to learn to make the pattern for different variety of women's wear according to standard body measurements. On completion of this subject students will be expected to, develop practical skill of garment construction for Women's wear and will also be expected to develop patterns for different designs

Course Outcome:

On successful completion of the course the students will be able to:		
SI No	**Course Outcome**	**Blooms Taxonomy Level**
CLO1	**Define** methods of pattern making and **Understand** garment construction.	**BT Level 1**
CLO2	**Recognize** different types and components of garments their patterns.	**BT level 3**
CLO3	**Develop** real garments with the desired shape, style and fit.	**BT Level 3**

CLO4	**Analyse** the complex factors that can affect the garment construction process.	**BT Level 4**

Detailed Syllabus:

Modules	**Topics &Subject Contents**	**Periods**	
		L	**P**
UNIT I	Style lines& fullness- classic princess line, armhole princess line, panel style line, fullness on princess line, at semi yoke above bust, to dart leg, gathers on a style dart, to insets, design variations. Yokes, pin tucks, pleats: Basic front yoke-slash & spread technique, pivotal & transfer, back yoke with inverted box pleat, back yoke with added fullness and gathers, yoke design variations, Pleat tucks, pin tucks.	**6**	**15**
UNIT II	contour guide patterns, cutout neckline, cutout armholes, armhole ease, empire style line, contour between the busts, strapless designs, surplice or wrap design, off shoulder designs- gathered shoulders, halters- V neck halter, Stovepipe neckline, built up bateau neckline, rounded inset band, inset band variation, types of cowls, back cowls, one piece armhole cowl, pleated cowl Contouring.	**6**	**15**
UNIT III	Construction of Dress using a combination of the above techniques (sloper block to be submitted with the final garment for evaluation)	**5**	15
UNIT IV	Study of jewellery, bags, shoes, belts and scarves, Design Research, market survey, Experiment with materials, Design Presentation, final concept, Sample exploration, surface ornamentation	**5**	15

4th Semester		
Minor Paper 2	**Introduction to Draping** **L-T-P-C: 1-0-4-3 Credits: 3** **Scheme of Evaluation: Practical**	**Subject Code: FAS082N416** **Level: 200**

Course objective:

The objective of the student is to learn material handling and understand and visualize design, proportion. Students will have an understanding of converting 2D material into 3 D form. They will have hands on experience of material handling & converting a design ketch in actual garment.

Course Outcome:

On successful completion of the course the students will be able to:		
CO Level	**Course Outcome**	**Blooms Taxonomy Level**
CO1	**Discuss** and **Observe** the basics of draping and to be able to drape and manipulate fabric to achieve the desired fit and style.	**BT Level 1**
CO2	**Identify** and **Develop** basic bodice blocks, sleeve blocks, yokes, collars, and dart manipulation.	**BT level 3**
CO3	**Practice** and **Establish** different draping techniques of yokes, pleats construction by creating blocks.	**BT Level 3**

CO4	**Plan**and **Organize** a portfolio presentation by implementing the different types of necklines for construction of a dress and **Advertise** a Collection of garments.	**BT Level 4**

Detailed Syllabus:

Modules	**Topics &Subject Contents**	**Periods**	
		L	**P**
UNIT I	Tools & supplies for draping, aligning grain lines, finding the cross grains, draping shortcuts, facings, padding the dress form, establishing the side seam & princess lines, the dress form cover- stitch or baste the first drape, armhole & neckline shaping. Closure options, stitching facing, finishing the bottom, Draping the basic dress, three draping principles, three draping techniques, pinning & marking, front bodice drape, draping neckline & shoulder, bridging hollows, armhole ease, folding seams, back bodice drape, centre alignment of the bodice, armhole, gap above mid armhole, gap below mid armhole, trueing front & back bodice.	**6**	**15**
UNIT II	Basic skirt drape: front skirt drape, back skirt drape, pinning draped bodice to the skirt, trueing front &back skirt, transferring front &back skirt to paper, outlying front &back skirt seamless pattern, seamed pattern, Basic sleeve: sleeve draft, seamed & seamless sleeve patterns, cap ease & notch placements, increase & decrease cap ease, setting sleeve into arm hole.	**6**	**15**
UNIT III	Dart manipulation: French dart, armhole dart, shoulder dart, waist/ side dart, waist/shoulder dart, gathers, pleats, tucks, curved dart, gathered dart leg.	**5**	15
UNIT IV	Bodice styles: princess design, armhole princess, the basic empire, panel bodice, Foundation of Torso and types of dress – shift, sheath, A line.	**5**	15

5thSemester		
Major Paper 3	**Study of Apparel Industry** **L-T-P-C: 0-0-8-4 Credits: 4** **Scheme of Evaluation: Practical**	**Subject Code: FAS082M513** **Level: 300**

Course Objective:
The objective of the subject is to develop understanding with an in-depth learning about the apparel and the accessory industry, its various departments and functions that play an important role. The students will learn the basics about jewelry design, explore with products like bags, shoes, belts and scarves and also to study the present trends in the market and then interpret it and create their own designs

Course Outcome:

On successful Completion of the course the students will be able to :		
CO Level	**Course Outcome**	**Blooms Taxonomy Level**
CO1	Define and identify manufacturing process of apparel and accessory industry	**BT Level 1**
CO2	**Apply** the knowledge of apparel and accessory industry and develop designs, concepts and its process	**BT level 2**
CO3	**Construct** prototype and learn the process of designing a full range of accessories. Analysis the role of an apparel merchandiser and the importance of maintaining quality parameters in the apparel industry.	**BT Level 3**
CO4	**Classify** and **construct** collection of accessories and Illustrate sketches of the final products which will later be the part of their portfolio which can be presented while applying for jobs in future aspects.	**BT Level 4**

Modules	**Topics &Subject Contents**	**Periods**	
		L	**P**
UNIT I	1.Introduction to Apparel Industry – various departments and their functioning, its parameters, planning and lead-time, pre-production activities, product development from prototype to production model, product data management, understanding specification sheet, operation sequence and garment breakdown with machine and attachment details 2. Development of production flowchart, introduction to bundle tickets – guidelines and functions, different manufacturing systems, introduction to apparel merchandising, different types, merchandise planning, sampling and cost estimation. 3. Different documents in an apparel industry - documents relating to goods; invoice, packing note and list, certificate of origin, certificates related to shipment, shipping bills, documents related to payment, letter of credit, bill of	**6**	**15**

	exchange, document related to inspection – certificate of inspection – GSP and other forms, ECGC and its role. Import License – procedure, import trade control regulation procedure, replenishment license, advance license, bill of entry. Quality testing and its importance, quality terminologies – sources of international standards.		
UNIT II	1. Quality Parameters of yarn: Yarn evenness & hairiness and their effect on fabric quality. Quality parameters of fabric: Brief study of fabric pilling resistance, bursting strength, colour fastness and dimensional stability. Testing of sewing threads, zippers, fusible interlinings, buttons and fasteners. Inspection: Incoming and raw materialinspection: Fabric inspection – 4-point system. In process/ on-line inspection: Advantages – On line inspection during spreading, pattern making, cutting, sewing and ironing. 2. Final inspection: Sampling plans and AQL charts – Level of final inspection. Packing & packaging quality tests. Care labelling and international care symbols. 3. Principles of TQM – Deming's PGDCA Cycle - KAIZAN concepts – 5 S ‟ applications in apparel industry. The Apparel industry in India- Domestic Industry, Export Industry, their sizes and natures. Sourcing and production centers – fabric dyeing, printing, finishing, trimmings and accessories. Major domestic retailing/overseas retailing, Auxiliary fashion Enterprises, Fashion Information service, Advertising& publicity Agencies.	**6**	**15**
UNIT III	Face mask designing and making.Study of jewelry, bags, shoes, belts and scarves. Design Research.Market survey Experiment with materials.	**5**	15

5th Semester		
Paper 6 **Major** **Course**	**Experiential Design for Entrepreneurship** **L-T-P: 0-0-8 Credits: 4** **Scheme of Evaluation: Practical**	**Subject Code:** **FAS082M515** **Level: 300**

Course Outcome:

The course emphasizes ethical entrepreneurship, responsible design, and value creation by integrating artisan narratives, heritage craftsmanship, contemporary market needs, and brand development into a cohesive entrepreneurial proposal.

Course Objective:

On successful completion of the course the students will be able to:		
CO Level	Course Outcome	Blooms Taxonomy Level
CO1	**Interpret** experiential learning into research-based design opportunities.	BT Level 1
CO2	**Develop** market-oriented collections inspired by traditional crafts.	BT level 2

CO3	**Apply** entrepreneurial principles including costing, pricing, sourcing, and branding.	BT Level 3
CO4	**Create** meaningful brand narratives that communicate artisan involvement and social impact.	BT Level 4

Detailed Syllabus:

Modules	Topics &Subject Contents	Periods	
		L	**P**
I.	Experiential Learning, Design Research and Opportunity Identification - Documentation and analysis of experiential learning in traditional handloom and handicraft clusters of Assam. Understanding artisan ecosystems, production clusters, challenges, opportunities, and design interventions. Entrepreneurship in the craft and textile sector, social entrepreneurship, and sustainable business practices. Design research methodologies, user profiling, market segmentation, competitor analysis, trend forecasting, consumer behaviour, market gap analysis, and positioning traditional crafts in contemporary markets.	6	15
II.	Concept Development, Collection Design and Production Planning - Translating research into design concepts using the design thinking process. Collection planning, product line development, range planning, sketch development, material exploration, surface development, sampling, and prototype development. Fabric and material sourcing, artisan and vendor selection, raw material procurement, production workflow, cluster-based production planning, sustainable sourcing, quality standards, and production scheduling.	5	15
III.	Costing, Pricing and Entrepreneurship - Cost sheet preparation, material and labour costing, artisan remuneration, overheads, packaging costs, pricing strategies, profit margin, wholesale and retail pricing, and break-even analysis. Business models for creative enterprises and preparation of an Entrepreneurship Brief including business idea, vision, mission, value proposition, target market, product category, revenue model, social impact, sustainability goals, and artisan collaboration model.	6	15
IV	Brand Identity, Storytelling, Marketing and Business Proposal - Development of brand identity through brand naming, philosophy, logo, typography, colour palette, packaging, and visual language. Craft storytelling, process documentation, artisan narratives, cultural significance of Assamese crafts, sustainability, and social impact. Marketing strategies including digital marketing, social media, e-commerce, retail, exhibitions, customer engagement, and content planning. Preparation and presentation of a comprehensive entrepreneurial business proposal comprising market analysis, product collection, branding, marketing, financial planning, production strategy, sustainability, growth strategy, risk assessment, and final entrepreneurial pitch.	5	15

6th Semester		
Major Paper 1	**Advanced Draping** **L-T-P-C: 0-0-8-4 Credits: 4** **Scheme of Evaluation: Practical**	**Subject Code: FAS082M611** **Level: 300**

Theobjectives of the subject is to enhance the skill of students by developing theirideasinto real garments by incorporating an advanced form of draping directly on a dress form to get the required style, shape and fit.

Course Outcome:

On successful Completion of the course the students will be able to :		
CO Level	**Course Outcome**	**Blooms Taxonomy Level**
CO1	**Identify** and **recall** various design analysis techniques.	**BT Level 1**
CO2	**Interpret** and **explain** advanced draping concepts such as bustiers and corsets.	**BT level 2**
CO3	**Apply** advanced draping methods to develop final design outcomes.	**BT Level 3**
CO4	**Analyze** and **present** individual portfolios showcasing advanced draping techniques.	**BT Level 4**

Modules	**Topics &Subject Contents**	**Periods**	
		L	**P**
UNIT I	Coats and jackets: Two piece sleeve, Easy two piece sleeve draft, Raglan Jacket, Trench Coat, Swing coat with shawl collar.	**6**	**15**
UNIT II	Gown: Corset, gown with ruffled petticoat.	**6**	**15**
UNIT III	Draping on Bias: Bias draped camisole, Bias chemise with princess line, asymmetric draped neckline	**5**	15

6thSemester		
Major Paper II	**Pattern Making & Garment Construction-III** **L-T-P-C: 0-0-8-4 Credits: 4** **Scheme of Evaluation: Practical**	**Subject Code: FAS082M612** **Level: 300**

Course Objective:

The objectives of the subject is to teach the students the pattern making and garment construction of formal outer wear for both women's wear and menswear on actual fabric. To understand the application of computers in pattern making.

Course Outcome:

On successful Completion of the course the students will be able to :		
SI No	**Course Outcome**	**Blooms Taxonomy Level**
CO1	**Understand** the different techniques used pattern drafting for men's wear	**BT Level 1**
CO2	**Create** patterns for formal wear for both men's and women's wear	**BT level 2**
CO3	**Create** final collection using the patterns developed	**BT Level 3**
CO4	**Analyze** and **construct** formal outerwear patterns for both women's and men's wear using actual fabric, and **evaluate** the application of computer-aided tools in pattern making.	**BT Level 4**

Modules	**Topics &Subject Contents**	**Periods**	
		L	**P**
UNIT I	Pattern development of 2 formal full sleeved shirt(1 Male + 1Female) and formal trousers(1 Male + 1Female). Tech pack(spec sheet, costing sheet, fabric sheet, trim sheet) to be developed simultaneously. Design innovation is encouraged. Developing toile of the formal full sleeved shirt (1 Male + 1Female) and the formal trousers- flat front or pleated (1 Male + 1Female)	**6**	**15**
UNIT II	Sewing 2 Formal shirt (1 Male + 1Female) in the actual fabric-striped or checked; taking care of mitring, finished product presentation to be done along with sloper and toile. Sewing 2 Formal trouser (1 Male + 1Female) in the actual fabric, finished product presentation to be done along with sloper , toile and tech pack.	**6**	**15**
UNIT III	Introduction about Reach CAD, Features of reach cad, Applications of reach cad, Style creation - To create a new style, Size setup, Unit set up, Size view, Style setup, Line draw, Curve draw, Save tracing. Open tracing, Select. Delete. Undo edit, Redo edit. Refresh view Zoom, to insert point in tracing, pattern and delete the points, Replace, Cut Draw internal – To draw Internal line, Grain line, Center line, Mirror line, Convert drawing –To convert tracing into internal, Draw Notches –To insert U notch, V notch, I notch, T notch Other Markings – To insert button hole, appex point, buttons, Duplicate – To create a copy of Pattern, Pattern segment, Trace segment & Internal, Open –To open the saved pattern, Save –To save the pattern, Save all–To save the entire pattern pieces. Measure–To measure pattern segment, tracing segment, Internal, Move – To move patterns & points Enclosed	**5**	15

	Angle, Join, Open, Cut a pattern Flip, Rotate, Align patterns, Fold, Parallel Seam, Hem, Shrink, Darts, Pleat, Fullness. Different File Extensions: Next Piece, Previous Piece, All Pieces, Visible pieces, Select Pieces, Drafting a pattern using Block Method		
UNIT IV	.Extraction of the Drafted Pattern, Grading the Drafted pattern. Stack-To stack the pattern at point, on x, on y, centre, by value, Move pin, Move Parallel, Fix piece, Drafting pattern using graph method, Piece attributes, Matching. Reach Marker: Marker-new, Add, Reference marker, Open, Save, Save as, Plot. Report – To get the consumption sheet for a particular marker Refresh pieces, Undo, Redo, Select, Delete and select all, View ,Zoom, Refresh, Repeat, Overlap Set up marker, Piece ,Fabric Variant – To open a PDS file in the marker module**,** Garment – To specify the color for respective size**.** Ratio – To give size ratio for a given size**,** Others – To specify the end allowance, selvedge allowance 2. Buffer –To create buffer or space around the piece to avoid overlapping**,** Shrinkage. Place – To move the piece through Move, Move\ Bump, Bump, Cursor 3. Insert fabric – To insert fabric by Width, Length, Width irregular, Length irregular. Remove fabric – To remove the inserted fabric 4. Rotate, Rotate ccw, Flip horizontal, Flip vertical, Open, Close, Mark Align &Measure, Advanced duplicate 5. Marry – To join two or more pieces**,** Divorce – To divorce the married pieces 6. Match, Cancel match, Buffer, Block**,** Fine rotate, Fine rotate ccw**,** Calculations 7. Consumption Sheet – displays the consumption sheet for a particular marker**,** Auto Nest, Shake pieces.	**5**	15

6thSemester		
Major **Paper III**	**Fashion Business Management - II** **L-T-P-C: 4-0-0-4 Credits: 4** **Scheme of Evaluation: Practical**	**Subject Code:** **FAS082M613** **Level: 300**

Course Objective:

The objectives of the subject is to enhance the entrepreneurship and management skills of the students by teaching them the traits of an entrepreneur- preparation & planning of a fashion business

Course Outcome:

On successful Completion of the course the students will be able to :		
CO Level	**Course Outcome**	**Blooms Taxonomy Level**
CO1	**To Understand** of the infrastructural set up and mode of functioning of the industry	**BT Level 1**
CO2	**To Classification** of the psychographic to demographic profile of the customer segment, the production system right upto the development of a commercially viable range	**BT level 2**
CO3	**Identify** their area of interest for own branding	**BT Level 3**
CO4	**Prepare** their own business plan for future.	**BT Level 4**

Modules	**Topics &Subject Contents**	**Periods**	
		L	**P**
UNIT I	1. Concept of Entrepreneurship and traits of an entrepreneur- distinction between entrepreneurs & manager, function of entrepreneur, types of entrepreneur. 2. Product identification and type of ownership- nature & scope of Fashion Business, Components of Business, Sole proprietorship, partnership, joint stock company. 3. Steps for launching a small enterprise- Scope & type of small business, object of small business, project identification	**6**	**15**
UNIT II	1. Preparation of business plan/project report- assessment of project feasibility, technical data (raw material, labour, technical process, output capacity), market survey, financial data, economic data. 2. Plant location and plant layout- product design, production planning & control, Assessing Technical feasibility of a project. Assessing commercial viability of a project in terms of market and demand- marketing concepts, market problems of small scale units, product branding	**6**	**15**

UNIT III	1. Assessing project cost and sources of finance including role of financial institutions and banks in rendering financial assistance for setting up small enterprise- fixed capital management, borrowed capital, financial institutes. 2. Assessing financial viability of a project including profitability, rate of return, break even point, debt service coverage ratio, payback period, internal rate of return, net value- concept of profit planning, break even analysis, zero base budgeting	**5**	15
UNIT IV	.1. Project planning, scheduling and control- application of bar chart & network diagrams. 2. Production functions/management, quality control, maintenance of plant, material management-office organization, management of personnel, regulatory framework.	**5**	15

6th Semester		
Major Paper IV	**Study on Sustainability & Product Development** **L-T-P-C: 0-0-8-4 Credits: 4** **Scheme of Evaluation: Practical**	**Subject Code: FAS082M614** **Level: 300**

Course Objective:

The objectives of the subject is to help the students study and understand sustainable clothing and its influence in today's fashion industry and modern life.**Course Outcome:**

On successful Completion of the course the students will be able to :		
SI No	**Course Outcome**	**Blooms Taxonomy Level**
CO1	**Identify** basic sustainability principles relevant to product development	**BT Level 1**
CO2	**Analyze**and **recognize**the environmental and social impacts of different product design choices.	**BT level 2**
CO3	**Design and develop** sustainable products by integrating eco-friendly materials and manufacturing processes	**BT Level 3**
CO4	**Implement** sustainable product development practices by analyzing the environmental impact of various design choices, selecting materials and manufacturing processes that minimize resource consumption and waste generation	**BT Level 4**

Modules	**Topics &Subject Contents**	**Periods**	
		L	**P**
UNIT I	Overview of Sustainability. Understanding the impacts of environment, resource consumption, depletion, resource choices. Key issues faced by the fashion and textiles industry. Ethical issues within the fashion design industries associated to: labour, conditions, health & safety, remuneration, waste management.	**6**	**15**
UNIT II	Up-cycling and recycling within the fashion design industries. Study and research the principles of slow fashion. The fashion supply chain 'lifecycle of a fashion product'. Case Study on successful sustainable fashion initiatives/brands/labels. Future trends within sustainable fashion. Innovations in sustainable materials and technologies associated to the fashion design industries: cotton/linen/silk – peace silk/Bamboo/pineapple/other innovative materials, Recycled and up-cycled materials. Research presentation and documentation.	**6**	**15**
UNIT III	Selection of a theme- theme board, inspiration board, colour board, mood board, client board. Design 2 sustainable garments on the given theme (textile recycling options) along with sustainable accessories	**5**	15
UNIT IV	Making the prototype of complete look - the garments and accessories by using only sustainable methods with zero waste. Portfolio presentation.	**5**	15

Minor **Paper V**	**Visual Merchandising** **L-T-P-C: 1-0-6-4 Credits: 4** **Scheme of Evaluation: Practical**	**Subject Code:** **FAS082N615** **Level: 300**

Course Objective:

The objective of the subject is to develop and understand the visual merchandise display of the fashion industry along with Planning and programming of a fashion brand's window display strategies.

Course Outcome:

On successful Completion of the course the students will be able to :		
SI No	**Course Outcome**	**Blooms Taxonomy Level**
CO1	Students will be able to **identify** the importance of visual appeal in fashion stores and **recognize** various display strategies used in visual merchandising..	**BT Level 1**
CO2	Students will be able to **explain** the principles of aesthetic presentation and the **underlying function** of lighting in enhancing product appeal.	**BT level 2**
CO3	tudents will be able to **apply** appropriate props and design elements to **create** visually appealing store displays and **develop** window facades within a given budget.	**BT Level 3**
CO4	Students will be able to **analyze** the effectiveness of different visual merchandising techniques and **evaluate** the use of design strategies for improving customer experience.	**BT Level 4**

Modules	**Topics &Subject Contents**	**Periods**	
		L	**P**
UNIT I	Introduction to Visual Merchandising (VM): Introduction, Objectives, Concept of Visual Merchandising, Objectives of Visual Merchandising, Growth of Visual Merchandising, Visual Merchandising in India	**6**	**15**

7th Semester		
Major Paper I	**Design Portfolio and Development** **L-T-P-C: 0-0-8-4 Credits: 4** **Scheme of Evaluation: Practical**	**Subject Code: FAS082M711** **Level: 400**

Course Objective:

To train students in fashion garment design and enable them to showcase their creations for a target market through a design portfolio.

Course Outcome:

On successful Completion of the course the students will be able to :		
CO Level	**Course Outcome**	**Blooms Taxonomy Level**
CO1	**Recall** and describe the stages involved in designing a garment through practical exposure.	**BT Level 1**
CO2	**Explain** the process of designing theme-based garments both manually and digitally.	**BT level 2**
CO3	**Develop** a full fashion range and design portfolio suitable for industry placements.	**BT Level 3**
CO4	**Analyze** and apply fashion design concepts and software skills in real-world garment creation.	**BT Level 4**

Modules	**Topics &Subject Contents**	**Periods**	
		L	**P**
UNIT I	Definition and importance of a portfolio, Types of portfolios (physical vs. digital) Purpose: Academic, professional, or personal branding, Elements of a strong portfolio	**6**	**15**
UNIT II	Understanding the target audience (employers, institutes, clients) Researching current portfolio trends Theme selection and concept development Collecting inspiration and references (mood boards, color palettes)	**6**	**15**
UNIT III	Structuring the portfolio (cover page, index, introduction, projects, resume) Presentation of work: sketches, illustrations, CADs, photoshoots Textual content: descriptions, captions, and concept explanations Design principles: layout, alignment, typography, and visual hierarchy	**5**	15

UNIT IV	Editing and refining the content Choosing formats: print or digital tools (PDF, website, slideshow) Preparing for interviews or exhibitions Peer and mentor reviews, portfolio critique sessions	**5**	15

7th Semester		
Major Paper II	**Industry Internship Documentation** **Credits: 4** **Scheme of Evaluation: Practical**	**Subject Code: FAS082M722** **Level: 400**

Course Objective:

To introduce students to the fashion industry by developing an understanding of the designer's role, responsibilities, and the relationship between design and production through professional design exposure.

Course Outcome:

On successful Completion of the course the students will be able to :		
CO Level	**Course Outcome**	**Blooms Taxonomy Level**
CO1	**Identify** and recall basic principles involved in design analysis.	**BT Level 1**
CO2	**Explore** and interpret concepts to develop creative design ideas.	**BT level 2**
CO3	**Apply** design knowledge to create a final design outcome.	**BT Level 3**
CO4	**Analyze** and present individual design work through a structured portfolio.	**BT Level 4**

Modules	**Topics &Subject Contents**	**Periods**	
		L	**P**
UNIT I	Components of a business oriented collection, factors contributing to a commercial collection, interpretation of key forecast, decision making on colors, trade sketching, design development sheets, range planning as a synthesis of creativity and utility, criteria for mass production/ prêt.	**6**	**15**
UNIT II	MethodsofSourcing,Vendors-terms,conditions&policies.Fabrics, processing & printing. Trims & Closures/ Accessories.Different types of Fabrics- Developments & Production. Different types of printing, sampling & production. Different types of dyestuff and application.	**6**	**15**
UNIT III	Process, Planning, Selection & managing workforce. Interaction, communication & coordination. Pattern Making, Cutting, Quality Measures, Fit, Grading, Finishing & Packing.	**5**	15
UNIT IV	Background of the organization, marketing policies & production, quality assurance & control, export formalities & shipping and a brief overview of the export potential.	**5**	15

7thSemester		
Major Paper III	**Outerwear Design & Development** **L-T-P-C: 0-0-8-4 Credits: 4** **Scheme of Evaluation: Practical**	**Subject Code: FAS082M713** **Level: 400**

Course Objective:

The objectives of the subject is to design and develop a complete range of Outerwear and learn the in-depth details of Outerwear by doing market research to final designing of the product.

Course Outcome:

On successful Completion of the course the students will be able to :		
CO Level	**Course Outcome**	**Blooms Taxonomy Level**
CO1	**Identify** and recall different variations of coats and jackets.	**BT Level 1**
CO2	**Interpret** design elements through concept exploration related to coats and jackets.	**BT level 2**
CO3	**Apply** creative skills to develop a final design outcome for coats or jackets.	**BT Level 3**
CO4	**Construct** and analyze a professional portfolio showcasing individual coat and jacket designs.	**BT Level 4**

Modules	**Topics &Subject Contents**	**Periods**	
		L	**P**
UNIT I	Mindmapping, techniques of idea generation, design exploration for Outerwear.	**6**	**15**

UNIT II	Market research: Trend forecasting and its types, selection of target market, developing style directions based on selected market trends.	**6**	**15**
UNIT III	Sourcing for fabric, trims, accessories.	**5**	15
UNIT IV	Study different Outerwear looks and create a stylized range of ensemble based on the previous modules.	**5**	15

Major **Paper V**	**Visual Merchandising** **L-T-P-C: 1-0-6-4 Credits: 4** **Scheme of Evaluation: Practical**	**Subject Code:** **FAS082M715** **Level: 400**

Course Objective:

The objective of thesubject is to develop and understand the visual merchandise display of the fashion industry along with Planningand programming of a fashion brand'swindow display strategies. The students will also be able to understand the architectural tools required for store planning in additionto exposure to a variety of materials used in the industryand concepts of lighting.

Course Outcome:

On successful Completion of the course the students will be able to :		
CO Level	**Course Outcome**	**Blooms Taxonomy Level**
CO1	**Identify** the importance of the visual appeal of a fashion store through various different displays/strategies.	**BT Level 1**
CO2	**Explain** aesthetic presentation and use of lights for visual appeal of the products. .	**BT level 2**
CO3	**Apply** knowledge to use props in visual presentation and develop window facades for given budget.	**BT Level 3**

CO4	**Analyze** visual presentation.	**BT Level 4**

Modules	Topics &Subject Contents	Periods	
		L	**P**
UNIT I	1. Introduction to Visual Merchandising (VM): Introduction, Objectives, Concept of Visual Merchandising, Objectives of Visual Merchandising, Growth of Visual Merchandising, Visual Merchandising in India, Scope of visual merchandising in India, Visual Merchandising as a Support for Positioning Strategy, Prospects of Visual Merchandising, Challenges in Visual Merchandising, The common challenges, Ways to overcome the visual merchandising challenges. 2. The Merchandise Mix: Introduction, Objectives, Concept of Merchandise Mix, Merchandise line, The Assortment of Products, Assortment strategy, Merchandise Mix of Show Off, Role of a merchandiser, Other Atmospherics in Merchandising, Colour scheme, Lighting	**6**	**15**
UNIT II	Store Management in Merchandising: Introduction, Objectives, Types of Stores, Location of a Store, Types of retail locations, Planning a Store Layout, Various Types of Store Layouts, Grid layout, Forced-path layout, Free-form layout, Boutique layout, Combined layout, Store Space Allocation, Heads of space allocation in a store, Managing Customer Navigation in a Store, General Rules of Customer Traffic in a Store, The Loop for Guiding the Shoppers through a Store.	**6**	**15**
UNIT III	Store Design and Display: Introduction, Objectives, Concept of Store Design and Display, Objectives of store design, Purpose and importance of display, Rules of display planning, Display Settings, Store Design, Exterior of a store, Interior of a store, Window displays, Merchandise Presentation Strategies, Colour blocking, Other techniques of merchandise placement, Physical materials used to support the display, Components of display, Some Useful Display Fixtures, Shelves, Gondolas, Round racks, Four ways, Saccades and fixation, Replenishes, Planogramming .	**5**	15
UNIT IV	Store Image & Security: Introduction, Objectives, Concept of Image Mix, Elements of Image Mix, Merchandise, Fixtures, Sound/Music, Odour, Visuals, Employees, Elements that Levy Negative Impact on Shoppers, Change of Image, Security Issues, Managing Communication for a Retail Store Offering: Introduction, Objectives, Marketing Communication, and Thematic Communication, Methods of Communication, Graphics, and Signage	**5**	15
TOTAL		82

8th Semester		
Major Paper I	**Dissertation(Research on Design Collection and Portfolio Presentation)** **Credits: 12** **Scheme of Evaluation: Practical**	**Subject Code: FAS082M811** **Level: 400**

Course Objective:

To equip students with the ability to research, conceptualize, and develop an innovative fashion collection targeted to a specific market, culminating in a professionally presented design portfolio.

Course Outcome:

On successful Completion of the course the students will be able to :

CO Level	Course Outcome	Blooms Taxonomy Level
CO1	**Identify** and understand the various stages of garment designing through practical application.	**BT Level 1**
CO2	**Apply** research and development methods to design a cohesive range of garments based on a single theme using both manual and digital tools.	**BT level 2**
CO3	**Develop** a complete fashion collection along with a professional portfolio tailored for industry placement.	**BT Level 3**
CO4	**Integrate** and **implement** design principles and software knowledge to produce industry-ready fashion outputs.	**BT Level 4**

Modules	Topics &Subject Contents	Periods	
		L	**P**
UNIT I	Understanding design themes and inspirations. Designing 5 well-accessorized ensembles. Interpreting themes through historical, contemporary, or futuristic lenses. Selecting appropriate silhouettes, fabrics, and color palettes. Sketching and visual development of the collection.	**6**	**15**
UNIT II	Identifying and analyzing a specific target market. Developing occasion-focused garment ideas (e.g., evening wear, formal, performance).Ensuring originality by avoiding replication of existing designs. Creating a distinctive style identity for the collection. .	**6**	**15**
UNIT III	Planning the overall visual impact of the collection.Emphasizing style, color coordination, garment details, and accessories.Strategies for effective stage presentation and cohesion in group/class showcases.Avoiding repetition in styles, silhouettes, and tones across the class collection.	**5**	15
UNIT IV	Techniques to achieve a good fit and clean finish.Precision in stitching, seam finishing, and embellishments.Final assembly of garments for showcase.Quality control and presentation-readiness. .	**5**	15

8th Semester		
Major Paper III	**Fashion Futures and Emerging Technologies** **L-T-P-C: 4-0-0 Credits: 4** **Scheme of Evaluation: Theory**	**Subject Code: FAS082M813** **Level: 400**

Course Objective:

To introduce students to emerging technologies, future trends, and innovative practices shaping the fashion and textile industry. The course aims to develop an understanding of artificial intelligence, digital tools, sustainability, speculative design, and future fashion systems while encouraging students to envision and create future-oriented fashion solutions.

Course Outcome:

On successful Completion of the course the students will be able to :		
CO Level	**Course Outcome**	**Blooms Taxonomy Level**
CO1	Explain the role of emerging technologies, innovation, and future thinking in the fashion and textile industry.	**BT Level 1**
CO2	Understand the applications of artificial intelligence, digital tools, speculative design, and sustainable innovations in fashion.	**BT level 2**

CO3	Apply AI-assisted and digital tools for fashion research, concept development, trend analysis, and design visualization.	**BT Level 3**
CO4	Analyze future fashion scenarios and develop innovative design concepts addressing emerging social, technological, and environmental challenges.	**BT Level 4**

Modules	**Topics &Subject Contents**	**Periods**	
		L	**P**
UNIT I	Introduction to future thinking in fashion, evolution of fashion technology, innovation in the fashion and textile industry, changing consumer behaviour, future trends in fashion and textiles, introduction to speculative design, fashion futures, design fiction, future lifestyles and their influence on fashion, role of innovation in fashion design.	**6**	**15**
UNIT II	Introduction to Artificial Intelligence, AI as a design support tool, AI for trend forecasting, AI for mood board and inspiration development, AI-assisted fashion illustration, AI for textile and print development, AI in branding and marketing, ethical considerations of AI in fashion, overview of digital design tools for fashion.	**6**	**15**
UNIT III	Digital fashion communication, digital portfolios, social media and fashion branding, e-commerce and omni-channel retail, virtual fashion shows, digital visual merchandising, future retail experiences, virtual fitting concepts, digital consumer engagement, future opportunities in fashion communication.	**5**	15
UNIT IV	Sustainable fashion technologies, circular fashion concepts, recycling and upcycling innovations, smart textiles and wearable fashion (overview), future materials and biomaterials, fashion and climate change, speculative fashion scenarios, future fashion systems, emerging careers in fashion technology and innovation, development of future-oriented fashion concepts. Practical Component: • AI-assisted trend board and mood board development • Future lifestyle and consumer research • Digital fashion communication exercises • Speculative fashion concept development • Future Fashion Project and Portfolio Presentation	**5**	15

6. Selected industry reports and articles on AI, sustainability, and emerging fashion technologies.

8thSemester		
Minor **Paper II**	**Design Portfolio and Collection Developmwnt** **L-T-P-C: 0-0-8-4 Credits: 4** **Scheme of Evaluation: Practical**	**Subject Code: FAS082N812** **Level: 400**

Course Objective:

The objective of the subject is to develop student's abilities in the fieldoffashion and the techniques for the developmentof designs and making of garments, responding to changingneeds in the fashion industry

Course Outcome:

On successful Completion of the course the students will be able to :		
CO Level	**Course Outcome**	**Blooms Taxonomy Level**
CO1	**Conduct design analysis and explore creative concepts** to initiate a contemporary fashion collection.	**BT Level 1**
CO2	**Apply research methods and design processes** to identify problems, develop hypotheses, and implement creative solutions for garment design.	**BT level 2**
CO3	**Develop** a complete fashion collection along with a professional portfolio tailored for industry placement.	**BT Level 3**
CO4	**Present a professional design portfolio** that reflects the final design outcome, individual creativity, and industry standards.	**BT Level 4**

Modules	**Topics &Subject Contents**	**Periods**	
		L	**P**
UNIT I	1.Identification of problem 2.Research, Analysis and Planning 3.Detailed Design & Concept Development 4.Final Implementation of Design Development 5.Introduction to Mood Board, Theme Board, Inspiration Board, Color Palette, Look Board, Design Board and Story Board Design Conception 6.Select final 5 ensembles for development 7.Select an appropriate theme for design development 8.Research on theme, colors, product design and other components before design development	**6**	**15**

	9.Make a theme board, color palette and story board based on the selected theme and product.		
UNIT II	1.Work in detail on the final selected concept for final collection 2.Create a detailed illustration of the collection 3.Documentation, Portfolio and Presentation.	**6**	**15**
UNIT III	1.Document the complete concept development process through appropriate scrap book, pictures, material swatches / samples, research material etc. 2.Record the stepwise design development process through photography 3.Compile a portfolio of the theme board, color palette, story board, all doodles, initial concepts, detailed illustration of the final selected design with specifications, proper mounting and appropriate labelling and the detailed product illustration in suitable surroundings 4. Submit all initial product samples and final prototype with all other documentation and portfolio for evaluation. 5. A research proposal (Knowledge and understanding) Demonstrate knowledge and understanding in the main field of study, including both broad knowledge of the field and a considerable degree of specialized knowledge in certain areas of the field as well as insight into current research and development work.	**5**	15
UNIT IV	1.A literature review 2. Document the complete concept development process and presentation.	**5**	15
