WORKSHOP HIGHLIGHTS

ACADEMIC RELEVANCE :

The Five-Day Faculty Development Programme on "Artificial Intelligence and Indian Knowledge Systems: Interpretation, Validation, and Innovation", aims to explore the intersection of Artificial Intelligence, higher education, research, and Indian Knowledge Systems (IKS).

The FDP focuses on the responsible application of AI in teaching, assessment, research, documentation, digitisation, and validation of knowledge. It also examines the potential of AI in preserving and interpreting manuscripts, oral and folk traditions, indigenous knowledge, traditional ecological wisdom, and cultural heritage.

By bringing together AI and IKS, the programme seeks to promote interdisciplinary learning, responsible innovation, knowledge preservation, and context-sensitive academic practices relevant to contemporary higher education.

OUTCOME

The FDP is envisaged as a capacity-building and interdisciplinary academic initiative that will enable faculty members to engage meaningfully with Artificial Intelligence while developing a deeper understanding of the possibilities of integrating AI with Indian Knowledge Systems. It seeks to promote responsible innovation, academic excellence, knowledge preservation, and context-sensitive application of emerging technologies in higher education.

ABOUT AIU-AADC

The **Association of Indian Universities (AIU)** is a premier representative body of universities and higher educational institutions (HEIs) in India. The **AIU–Academic and Administrative Development Centre (AADC)** is a forward-looking initiative aimed at strengthening the academic and administrative ecosystem of HEIs.

The Centre focuses on:
- Training faculty for online, offline, and blended teaching–learning methodologies
- Developing e-content and leveraging technology for continuous assessment and evaluation
- Facilitating research collaboration
- Conducting programmes on effective university governance and administration through technological advancements

ARTIFICIAL INTELLIGENCE AND INDIAN KNOWLEDGE SYSTEMS:
INTERPRETATION, VALIDATION, AND INNOVATION
ORGANISED BY AIU-RGU-AADC
in association with
Centre for Indian Knowledge System,
The Assam Royal Global University, Guwahati-Assam

2nd to 6th November 2026

OBJECTIVES OF WORKSHOP

1. Develop foundational understanding of Artificial Intelligence and its applications in higher education, teaching, learning, assessment, and research.
2. Enhance faculty capacity to use AI-enabled pedagogical and research practices for improving teaching effectiveness, academic content development, assessment, documentation, and knowledge generation.
3. Promote responsible and ethical use of Artificial Intelligence with awareness of privacy, academic integrity, transparency, attribution, and responsible use of AI-generated content.
4. Explore the integration of Artificial Intelligence with Indian Knowledge Systems, particularly in the interpretation, documentation, validation, preservation, and contemporary application of traditional knowledge.
5. Examine the use of AI in documenting and preserving manuscripts, oral, folk, indigenous, and community knowledge, while recognising issues of authenticity, cultural context, ownership, and ethical documentation.
6. Explore AI applications in traditional ecological knowledge, natural product research, heritage conservation, and cultural interpretation for sustainable and innovative knowledge practices.
7. Foster interdisciplinary collaboration and innovation by enabling faculty members to develop practical approaches for integrating AI and Indian Knowledge Systems into teaching, research, and academic practices.

WHO SHOULD ATTEND

- Faculty Members from Higher Educational Institutions (HEIs)
- Research Scholars
