Major Course:3
Level of Course – 300
Title of the Paper: Videography & Editing
Subject Code: JMC092M514
LTP: 0-0-8
Credit Units: 4
Scheme of Evaluation: Practical

Course Objectives:
This course aims to introduce students to the fundamentals of videography and visual storytelling while developing their technical skills in camera handling, framing, lighting, and sound recording. It also seeks to equip learners with practical knowledge of video editing techniques and post-production

workflows, enabling them to create professional-quality video content. Additionally, the course familiarizes students with AI-assisted editing tools and emerging trends in digital video production, preparing them to adapt to the evolving media and entertainment industry.

Course Outcomes:

On successful completion of the course the students will be able to:		
CO Level	**Course Outcome**	**Blooms Taxonomy Level**
CO 1	**Relate**the basic operation of video cameras and related production equipment effectively	**BT1**
CO 2	**Demonstrate** theprinciples of visual composition and cinematography	**BT2**
CO 3	**Identify** the various types of professional editing software required to edit a video.	**BT3**
CO 4	**Compare and Contrast**the storytelling process ofdigital video content for television, YouTube, and social media platforms.	**BT4**

Major Course
Level of Course –300
Title of the Paper: Advanced Writing for Print Journalism
Subject Code: JMC092M505
LTP: 4-0-0
Credit Units: 4
Scheme of Evaluation: Theory

Course Objectives

This course aims to develop advanced news writing and reporting skills for print journalism while enhancing students' understanding of newspaper structure, content organization, and revenue generation through advertising. It seeks to equip students with practical reporting skills for covering specialized beats such as politics, legislature, crime, courts, education, health, environment, and development issues. The course also focuses on strengthening feature writing, editorial writing, opinion writing, and interpretative journalism skills for diverse newspaper audiences. Further, it aims to provide hands-on experience in newspaper editing, page design, fact-checking, and newsroom practices while promoting ethical and professional standards in print journalism.

Course Outcomes:

On successful completion of the course the students will be able to:		
CO No.	**Course Outcome**	**Blooms Taxonomy Level**
CO1	Recall the structure, functions, and revenue models of newspapers and relate the knowledge of advanced news writing techniques.	**BT1**
CO2	Interpret and demonstrate reporting skills to gather, verify, and write news stories for specialized beats and diverse reporting situations.	**BT2**
CO3	Identify feature stories, editorials, reviews, and interpretative articles using appropriate journalistic styles and storytelling techniques.	**BT3**
CO4	Analyze and edit news content through copy editing, fact-checking, page planning, and ethical decision-making in professional newsroom environments.	**BT4**
