Detail syllabus for first Semester

FIRST SEMESTER	
Core Paper-1	Introduction to Mass Media
Subject Code	JMC094C101
Scheme of Evaluation	Theory
Credit	4
Level of Course	400
LTPC	4-0-0-4

Course objectives

This course introduces the fundamental concepts, theories, and types of communication to help students understand the foundations of mass communication and its evolving role in society. It provides insights into media systems and trends at the regional, national, and global levels.

Course Outcomes

Onsuccessfulcompletionofthecoursethestudentswillbeableto:		
CO level	**Course Outcome**	**Bloom's Taxonomy**
CO1	Define the meaning, concept, process, and various aspects of communication and mass communication.	**BT 1**
CO2	Explain the characteristics and functions of different media systems and their societal impacts.	**BT 2**
CO3	Identify and analyze major models of communication applicable to various media contexts.	**BT 3**
CO4	Analyze communication models/theories to contemporary media practices, emphasizing regional and global perspectives	**BT 4**

Course Content

Detailed Syllabus				
Modules	**Name**	**Course Contents**	**SDG Alignment**	**Periods**
1	**Understanding Communication**	Definition, nature, scope, and importance of communication; Process and elements of communication: Sender, Message, Channel, Receiver, Feedback, and Noise; Functions of communication: Informing, Educating, Persuading, and Entertaining; Characteristics of effective communication; Barriers to communication and their removal; Importance of feedback in communication.	SDG 4 – Quality Education	15
2	**Forms and Types of Communication**	Verbal and Non-verbal Communication; Oral and Written Communication; Formal and Informal Communication; Intrapersonal Communication; Interpersonal Communication; Group Communication; Public Communication; Mass Communication; Communication in contemporary society and everyday life.	SDG 4 – Quality Education; SDG 10 – Reduced Inequalities	15
3	**Evolution and Development of Mass Media**	Historical development of communication and media; Growth of Print Media: Newspapers, Magazines, and Books; Evolution of Broadcast Media: Radio and Television; Development of Film and Cinema; Emergence of Digital Media: Internet, Social Media, and Mobile Media; Characteristics of traditional and new media; Media convergence and changing communication landscape.	—	15
4	**Functions, Role and Responsibility of Mass Media**	Functions of mass media: Information, Education, Entertainment, and Persuasion; Media as the Fourth Estate; Media as a Watchdog and Agenda Setter; Media and Society: Communication for Development and Social Change; Impact of media on culture,	SDG 16 – Peace, Justice and Strong Institutions	15

		public opinion, and democracy; Media ethics, responsibility, and professional standards; Contemporary issues and challenges in mass communication.

FIRST SEMESTER	
Core Paper-2	Communication Theory
Subject Code	JMC094C102
Scheme of Evaluation	Theory
Credit	4
Level of Course	400
LTPC	4-0-0-4

Course Objectives

The course introduces key communication theories and their development over time. It enables students to analyze media, culture, and society using these theories in contemporary contexts.The course also explores the impact of emerging communication models and digital technologies on theoretical frameworks.

Course Outcomes

Onsuccessfulcompletionofthecoursethestudentswillbeableto:		
CO level	**Course Outcome**	**Bloom's Taxonomy**
CO1	Define key communication theories and their historical evolution with examples from regional, national, and global media contexts.	BT1
CO2	Explain and relate various communication models to diverse social and cultural environments, emphasizing media practices in Northeast India, India, and worldwide.	BT2
CO3	Identify the effectiveness of communication theories in addressing modern media challenges like digital transformation and cultural preservation at local, national, and global levels.	BT3
CO4	Analyze communication theories and frameworks to assess their applicability in shaping media strategies and policies impacting society at multiple scales.	BT4

Course Content

Modules	Name	Course Contents	SDG Alignment	Periods
1	**Introduction to Communication Theory**	Definition and Importance of Communication Theory and Models, Difference between theory and model. Role and significance of theory in communication studies, Early communication theories: Aristotle's concept of mass communication, Development of modern communication theory.	—	**15**
2	**Classical and Modern Models of Communication**	Aristotle's Model, Lasswell's Model, Shannon-Weaver Model, Berlo's S-M-C-R Model, Osgood-Schramm Model, Westley and MacLean Model, George Gerbner's Model	—	**15**
3	**Sociological Communication Theories**	Types of Communication Theory: Structural and functional theories, Sadharnikaran, Normative, Agenda Setting Theory, Hypodermic Needle Theory: Concept and critique, Two-Step and Multi-Step Flow Theory: Role of opinion leaders, Uses and Gratifications Theory: Audience-centered approach, Types of media gratifications, Media Dependency Theory, Spiral of Silence	SDG 10 – Reduced Inequalities; SDG 16 – Peace, Justice and Strong Institutions	**15**
4	**Psychological Theories**	Cognitive Dissonance, Selective Perception, Cultivation Theory: Media's role in shaping perceptions of reality, Case studies: Impact of television and social media.	SDG 4 – Quality Education; SDG 16 – Peace, Justice and Strong Institutions	**15**

THIRD SEMESTER	
Core Paper-1	Media in Northeast
Subject Code	JMC094C301
Scheme of Evaluation	Theory
Credit	4
Level of Course	500
LTPC	4-0-0-4

Course Objectives

The course aims to provide an in-depth understanding of the historical evolution, current trends, and unique challenges of media in Northeast India. It enables students to critically analyze the role of media in the socio-political, cultural, and developmental context of the region.

Course Outcomes

On successful completion of the course the students will be able to:		
CO level	**Course Outcome**	**Bloom's Taxonomy**
CO 1	Demonstrate an understanding of the historical evolution and growth of media in Northeast India.	BT 2
CO 2	Apply knowledge of media systems, indigenous media practices, and cultural diversity in the region's media landscape.	BT 3
CO 3	Analyze the role of media in shaping socio-political and economic narratives in Northeast India.	BT 4
CO 4	Evaluate the challenges and opportunities faced by media organizations in Northeast India in the context of globalization and regional identity.	BT 5

Course Content

Modules	Name	Course Contents	SDG Alignment	Periods
1	**Understanding North East India**	Overview of the Northeast region: Concept of Bor-Asom, Geographical location and boundaries, States of Northeast India and their capitals, Major rivers, mountains, and climate, Historical Background of Northeast region and states, Cultural Diversity and Ethnic Groups: Major ethnic communities and their traditions, Language diversity and linguistic heritage, Festivals, art, and music, Major tourist attractions and eco-tourism.	SDG 11 – Sustainable Cities and Communities; SDG 15 – Life on Land (eco-tourism, biodiversity, natural resources)	15
2	**Media and Communication in Northeast India**	Growth of print, electronic, and digital media, Representation of Northeast in mainstream media, Role of journalism, Media's role in reporting conflicts, Media as a tool for peace and reconciliation, Case studies	SDG 16 – Peace, Justice and Strong Institutions	15
3	**Media and Issues of Northeast**	Media coverage of specific conflicts (e.g., Assam insurgency, Manipur conflicts), role of regional and national media in peace processes,	SDG 5 – Gender Equality, SDG 10 – Reduced Inequalities; SDG 13 – Climate	15

		Gender issues in NE India. Major movements of NE region, Ethnic Diversity and Identity, border disputes: Interstate border conflicts, impact of illegal migration, insurgency and security concerns: Armed Forces (Special Powers) Act (AFSPA) and human rights concerns. Environmental Challenges and Climate Change: Deforestation and loss of biodiversity, Floods, landslides, and climate vulnerabilities, Conservation efforts. Act East Policy, Media and digital challenges, fake news, misinformation, and digital divide	Action; SDG 15 – Life on Land (biodiversity and conservation); SDG 16 – Peace, Justice and Strong Institutions	
4	**Emerging Trends in Northeast Media**	Future of Media in Northeast India: potential of artificial intelligence and new technologies, Opportunities in media entrepreneurship and startups, sustainability of regional media industries, role of media in tourism promotion and development in the Northeast	SDG 8 – Decent Work and Economic Growth; SDG 9 – Industry, Innovation and Infrastructure (AI and media technologies); SDG 11 – Sustainable Cities and Communities	15

Presentation on media issues in Northeast India	4	6	10
Documentary/film screening related to Northeast India	-	6	6
Writing reports/features on socio-cultural issues	6	6	12
Conducting survey on regional media consumption	4	6	10
Portfolio preparation on Northeast media landscape	-	10	10
Total Hours	22	38	60

THIRD SEMESTER	
Core Paper-2	Development Communication
Subject Code	JMC094C302
Scheme of Evaluation	Theory
Credit	4
Level of Course	500
LTPC	4-0-0-4

Course Objectives:

The course introduces students to the theories, models, and practices of development communication, focusing on how media, technology, and participatory approaches promote inclusive and sustainable development across regional, national, and global contexts.

Course Outcomes

On successful completion of the course the students will be able to:		
CO level	**Course Outcome**	**Bloom's Taxonomy**
CO 1	Recall and explain the fundamental concepts, scope, and evolution of development communication	BT1
CO 2	Understand and interpret major development communication paradigms and their application in different socio-economic contexts	BT2
CO 3	Apply development communication strategies through media, technology, and participatory tools in real-world scenarios	BT 3
CO 4	Analyze the role and effectiveness of media institutions, government programs, and NGOs in achieving development goals.	BT4

Course Contents

Modules	Name	Course Contents	SDG Alignment	Periods
1	**Introduction to Development Communication**	Concept and Definition of Development Communication: Evolution and history of development communication, Key theorists and models (Daniel Lerner, Everett Rogers, etc.).Development Paradigms and Theories: Modernization theory, Dependency theory, Participatory communication.Role of Media in Development: Traditional media vs. new media, Impact of media in rural and urban areas.	SDG 4 – Quality Education; SDG 10 – Reduced Inequalities	15
2	**Strategies and Approaches in Development Communication**	Participatory Communication: Importance of involving communities, Tools for participatory communication (e.g., PRA, community radio).Media Advocacy and Social Change: Using mass media for social mobilization, Social marketing and behavior change communication.ICT for Development (ICT4D): The role of digital technologies in development, E-governance, telemedicine, and mobile communication for rural	SDG 9 – Industry, Innovation and Infrastructure; SDG 10 – Reduced Inequalities; SDG 16 – Peace, Justice and Strong Institutions	15

		development.		
3	**Sectors of Development Communication**	Health Communication: Public health campaigns (HIV/AIDS, immunization), Communicating preventive care.Environmental Communication: Sustainable development and climate change communication, Community-based environmental awareness.Agriculture Communication: Agricultural extension services, Communicating innovations in farming.	SDG 2 – Zero Hunger; SDG 3 – Good Health and Well-being; SDG 13 – Climate Action	15
4	**Challenges and Future Directions in Development Communication**	Ethical Issues in Development Communication: Representation and voice of marginalized groups.Challenges in Participatory Approaches: Problems with top-down vs. bottom-up approaches. Funding, resources, and political influence.Future Trends in Development Communication: Emerging technologies, Role of social media in development campaigns.	SDG 10 – Reduced Inequalities; SDG 16 – Peace, Justice and Strong Institutions	15
Total				**60**

THIRD SEMESTER	
Core Paper-3	**Videography and Editing**
Subject Code	JMC094C313
Scheme of Evaluation	Practical
Credit	4
Level of Course	500
LTPC	0-0-8

Course Objectives:

The course aims to introduce students to the fundamentals of videography and visual storytelling while building a strong conceptual understanding of how visual narratives are created and communicated. It focuses on developing technical skills in camera handling, framing, composition, lighting, and sound recording to ensure professional-quality video production. The course also trains students in video editing techniques and post-production workflows, enabling them to effectively shape raw footage into coherent and engaging visual content. In addition, it introduces students to AI-assisted editing tools and emerging trends in digital video production, preparing them to adapt to the evolving landscape of contemporary media industries.

Course Outcomes:

On successful completion of the course the students will be able to:		
CO Level	**Course Outcome**	**Blooms Taxonomy Level**
CO 1	**Relate**the basic operation of video cameras and related production equipment effectively	**BT1**
CO 2	**Demonstrate** theprinciples of visual composition and cinematography	**BT2**
CO 3	**Identify** the various types of professional editing software required to edit a video.	**BT3**
CO 4	**Compare and Contrast**the storytelling process ofdigital video content for television, YouTube, and social media platforms.	**BT4**

Course Outlines:

Modules	**Name**	**Course Contents**	**SDG Alignment**	**Periods**
1	**Fundamentals of Videography**	Visual storytelling and moving images; types of video production (news, documentary, advertisement, social media content, short films); Visual grammar and composition; scriptwriting and storyboarding; Video production for YouTube, Instagram, and OTT platforms; Vertical video and short-form storytelling; Lights and sound.	SDG 4 – Quality Education	30
2	**Camera Techniques and Production**	Functions of the camera; single-camera and multi-camera production; Types of cameras and lenses; Camera controls: aperture, shutter speed, ISO, white balance, focus; Camera movements and angles; Continuity: Types of continuity; Magnification of shots; Transitions and Cuts.	—	30
3	**Video Editing and Post-Production**	Editing: Meaning and concept; Types of editing: Linear and Non-linear editing; Advantages and disadvantages of linear and non-linear editing; Tracks and channels; Continuity editing, montage and visual storytelling; Sound	SDG 4 – Quality Education	30

		design; Angles: Subjective, Objective and POV; Sound Design; Use of music, SFX, Silence, Dialogue, Narration, Voice Overs; Sound proximity and continuity; AI-assisted video editing tools and AI-generated subtitles and voiceovers; Exporting: All the formats.		
4	**Video Project**	Students will have to shoot and edit a documentary/short film, to be scripted, shot and edited by students for the fulfilment of the course.	SDG 16 – Peace, Justice and Strong Institutions	30
Total				**120**

Core Paper-1	Media in Northeast
Subject Code	JMC094C301
Scheme of Evaluation	Theory
Credit	4
Level of Course	500
LTPC	4-0-0-4

Course Objectives

The course aims to provide an in-depth understanding of the historical evolution, current trends, and unique challenges of media in Northeast India. It enables students to critically analyze the role of media in the socio-political, cultural, and developmental context of the region.

Course Outcomes

On successful completion of the course the students will be able to:		
CO level	**Course Outcome**	**Bloom's Taxonomy**
CO 1	Remember and understanding of the historical evolution and growth of media in Northeast India.	BT 2
CO 2	Apply knowledge of media systems, indigenous media practices, and cultural diversity in the region's media landscape.	BT 3
CO 3	Analyze the role of media in shaping socio-political and economic narratives in Northeast India.	BT 4
CO 4	Evaluate the challenges and opportunities faced by media organizations in Northeast India in the context of globalization and regional identity.	BT 5

Course Content

Modules	Name	Course Contents	SDG Alignment	Periods
1	**Understanding North East India**	Overview of the Northeast region: Concept of Bor-Asom, Geographical location and boundaries, States of Northeast India and their capitals, Major rivers, mountains, and climate, Historical Background of	SDG 11 – Sustainable Cities and Communities; SDG 15 – Life on Land	15

		Northeast region and states, Cultural Diversity and Ethnic Groups: Major ethnic communities and their traditions, Language diversity and linguistic heritage, Festivals, art, and music, Major tourist attractions and eco-tourism.	(eco-tourism, biodiversity, natural resources)	
2	**Media and Communication in Northeast India**	Growth of print, electronic, and digital media, Representation of Northeast in mainstream media, Role of journalism, Media's role in reporting conflicts, Media as a tool for peace and reconciliation, Case studies	SDG 16 – Peace, Justice and Strong Institutions	15
3	**Media and Issues of Northeast**	Media coverage of specific conflicts (e.g., Assam insurgency, Manipur conflicts), role of regional and national media in peace processes, Gender issues in NE India. Major movements of NE region, Ethnic Diversity and Identity, border disputes: Interstate border conflicts, impact of illegal migration, insurgency and security concerns: Armed Forces (Special Powers) Act (AFSPA) and human rights concerns. Environmental Challenges and Climate Change: Deforestation and loss of biodiversity, Floods, landslides, and climate vulnerabilities, Conservation efforts. Act East Policy, Media and digital challenges, fake news, misinformation, and digital divide	SDG 5 – Gender Equality, SDG 10 – Reduced Inequalities; SDG 13 – Climate Action; SDG 15 – Life on Land (biodiversity and conservation); SDG 16 – Peace, Justice and Strong Institutions	15
4	**Emerging Trends in Northeast Media**	Future of Media in Northeast India: potential of artificial intelligence and new technologies, Opportunities in media entrepreneurship and startups, sustainability of regional media industries, role of media in tourism promotion and development in the Northeast	SDG 8 – Decent Work and Economic Growth; SDG 9 – Industry, Innovation and Infrastructure SDG 11 – Sustainable Cities and Communities	15

Subject Code	JMC094C328
Scheme of Evaluation	Practical
Credit	8
Level of Course	500
LTPC	0-0-16-8

Course Objectives:

The course aims to enable students to conceptualize, design, and execute an independent project in the form of a film, documentary, or pilot research study, applying theoretical knowledge and practical skills acquired during the programme. It fosters critical thinking, creativity, and research aptitude, preparing students for professional or academic pursuits in media and communication.

Course Outcomes

On successful completion of the course the students will be able to:		
CO level	**Course Outcome**	**Bloom's Taxonomy**
CO 1	**Identify** and define a relevant research or creative problem in film, documentary, or pilot study.	BT 2
CO 2	**Apply** appropriate research methods, pre-production planning, and technical skills to develop the project.	BT 3
CO 3	**Analyze** data, footage, or research findings to shape content, narrative, and structure.	BT 4
CO 4	**Evaluate** and present the final output with critical reflection on process, challenges, and outcomes.	BT 5

THIRD SEMESTER	
Core Paper-1	Research- phase I (Seminar)
Subject Code	JMC094C329
Scheme of Evaluation	Practical
Credit	20
Level of Course	500
LTPC	0-0-40-20

Course Objectives:

The objective of this course is to equip students with the skills to formulate research problems, conduct literature reviews, and design pilot studies through independent inquiry and critical analysis. It aims to develop students' ability to effectively present and defend their research proposals through seminars and presentations, laying the foundation for their final research project.

Course Outcomes

On successful completion of the course the students will be able to:		
CO level	**Course Outcome**	**Bloom's Taxonomy**
CO 1	**Understand** the principles of research design, problem identification, and formulation of research objectives.	BT 2
CO 2	**Apply** appropriate research methods and tools for conducting pilot studies or preliminary investigations.	BT 3
CO 3	**Analyze** collected data to derive meaningful insights and refine research hypotheses.	BT 4
CO 4	**Present** research findings effectively through academic presentations and seminars.	BT 4

Course Execution:

The course will be executed through a structured research process. Students begin by selecting a topic, formulating research questions, and developing a detailed proposal for faculty approval. They will conduct a thorough literature review to identify knowledge gaps and justify their study. Based on an approved methodology, students will design their research, collect and ethically manage data, and perform detailed analysis. Findings will be interpreted considering existing literature. Students will compile a well-structured research report following academic standards. Finally, they will present their work and defend it through a viva-voce before an evaluation panel.
