DETAILED SYLLABUS
DEPARTMENT OF GRAPHIC DESIGN

1st Semester		
Paper 1 Major (Core)	Introduction to Design L-T-P-C : 1-0-4-3 Credits : 3 Scheme of Evaluation : Studio	Subject Code: GRD082M111 Level : 100

Course Objective: To introduce learners to the fundamentals of design, its history, disciplines and processes, and to build a vocabulary for creative thinking and making.

Course Outcome:

After successful completion of the course, students will be able to		
CO Level	**Course Outcome**	**Blooms Taxonomy Level**
CO 1	Understand the meaning, scope and disciplines of design.	BT1
CO 2	Apply basic design processes to simple problems.	BT2
CO 3	Analyze examples of good design across contexts.	BT3
CO 4	Create simple design outcomes using foundational methods.	BT4

Prerequisite:

No Prerequisites

Detailed Syllabus:

Modules	**Topics (if applicable) & Course Contents**	**Periods/ Hours**	
		L	**P**
I	**What is Design** Definition and scope of design Design disciplines and their interrelation Role of the designer in society	4	15
II	**History and Movements** Evolution of design Key movements: Bauhaus, De Stijl, Modernism Indian design heritage	4	15
III	**The Design Process** Design thinking overview Research, ideation, prototyping Iteration and feedback	4	15
IV	**Design in Practice** Case studies Ethics and sustainability in design Introductory project	3	15
	TOTAL	**15**	**60**

Notional Credit Hours for the course: 30 x 3 = 90

Total Credits in the Paper	**Lecture/ Tutorial**	**Studio/Practical**	**Experiential Learning**
3	15 hours	60 hours	8 hours
			Studio Exercises, Design Diary, Presentations

1st Semester		
Paper 2 Major (Core)	Elements & Principles of Design L-T-P-C : 1-0-4-3 Credits : 3 Scheme of Evaluation : Studio	Subject Code: GRD082M112 Level : 100

Course Objective: To build a thorough understanding of the visual elements and organizing principles of design and to apply them in two- and three-dimensional compositions.

Course Outcome:

After successful completion of the course, students will be able to		
CO Level	**Course Outcome**	**Blooms Taxonomy Level**
CO 1	Understand the elements and principles of design.	BT1
CO 2	Apply elements and principles to create effective compositions.	BT2
CO 3	Analyze compositions in terms of visual organization.	BT3
CO 4	Create balanced, expressive design compositions.	BT4

Prerequisite:

No Prerequisites

Detailed Syllabus:

Modules	**Topics (if applicable) & Course Contents**	**Periods/ Hours**	
		L	**P**
I	**Elements of Design** Point, line, shape, form Texture, value, space Colour basics	4	15
II	**Principles of Design** Balance, contrast, emphasis Rhythm, movement, proportion Unity and variety	4	15
III	**Two-Dimensional Composition** Figure-ground Grid and structure Gestalt principles	4	15
IV	**Three-Dimensional Composition** Form and volume Space and mass Model making	3	15

1st Semester		
Paper 3 Minor	Illustration Technique L-T-P-C : 1-0-4-3 Credits : 3 Scheme of Evaluation : Studio	Subject Code: COD082N111 Level : 100

Course Objective: To develop illustration skills across media and to enable learners to communicate ideas, narratives and concepts through effective visual illustration.

Course Outcome:

After successful completion of the course, students will be able to		
CO Level	**Course Outcome**	**Blooms Taxonomy Level**
CO 1	Understand the fundamentals and styles of illustration.	BT1
CO 2	Apply drawing and rendering techniques across media.	BT2
CO 3	Analyze illustration for narrative and communication.	BT3
CO 4	Create original illustrations for design applications.	BT4

Prerequisite:

No Prerequisites

Detailed Syllabus:

1st Semester		
Paper 4 Interdisciplinary (IDC)	Indian Knowledge System L-T-P-C : 3-0-0-3 Credits : 3 Scheme of Evaluation : Theory	Subject Code: IKS992K101 Level : 100

Course Objective: To introduce learners to the Indian Knowledge System (IKS) and its systematized disciplines developed in India from ancient times, and their relevance to contemporary design.

Course Outcome:

After successful completion of the course, students will be able to		
CO Level	**Course Outcome**	**Blooms Taxonomy Level**
CO 1	Understand the scope and significance of the Indian Knowledge System.	BT1
CO 2	Apply insights from traditional Indian knowledge to design thinking.	BT2
CO 3	Analyze Indian arts, crafts and sciences as knowledge traditions.	BT3
CO 4	Appreciate the continuity of Indian knowledge in modern practice.	BT4

Prerequisite:

No Prerequisites

Detailed Syllabus:

Modules	Topics (if applicable) & Course Contents	Periods/ Hours	
		L	P
I	**Introduction to IKS** Meaning and scope of IKS Vedas, Vedangas and Upavedas Oral and textual traditions	12	0
II	**Indian Arts and Aesthetics** Shilpa Shastra Natyashastra and rasa theory Traditional crafts	11	0
III	**Science and Technology in India** Vedic mathematics Astronomy and metallurgy	11	0

	Ayurveda		
IV	**IKS and Contemporary Design** Sustainability in tradition Indigenous materials Case studies	11	0

Course Objective: To introduce the learner to the fundamentals of effective communication and build a foundation in listening, speaking, reading and writing skills.

Course Outcome:

After successful completion of the course, students will be able to		
CO Level	**Course Outcome**	**Blooms Taxonomy Level**
CO 1	Understand the communication process and its components.	BT1
CO 2	Apply grammar and vocabulary for clear expression.	BT2
CO 3	Analyze spoken and written texts for meaning.	BT3
CO 4	Demonstrate effective listening and speaking skills.	BT4

Paper 3 **Minor**	Elements, Form & Structure L-T-P-C : 1-0-4-3 Credits : 3	Subject Code: COD082N211

	Scheme of Evaluation : Studio	Level : 100

Course Objective: To develop the learner's understanding of form, structure and their generation through systematic study of two- and three-dimensional relationships.

Course Outcome:

After successful completion of the course, students will be able to		
CO Level	**Course Outcome**	**Blooms Taxonomy Level**
CO 1	Understand the relationship between elements, form and structure.	BT1
CO 2	Apply structural principles to generate forms.	BT2
CO 3	Analyze forms for order, proportion and stability.	BT3
CO 4	Create three-dimensional structures and forms.	BT4
