Semester – I

Subject Name: Food Production Lab – I
Type of Course: Skill Enhancement Course
Paper Code: HMT192S112
Course Level: 100
Course Credit: 2
Scheme of Evaluation: Practical
L-T-P-C: 0-0-4-2

Course Objectives:

This course introduces students to fundamental kitchen operations, focusing on equipment identification, hygiene practices, and safety protocols. It develops essential culinary skills, including vegetable and fruit preparation, cooking techniques, and the use of stocks and sauces. The course also trains students in egg and fish cookery while demonstrating simple menu preparations, reinforcing both theoretical and practical aspects of professional cooking.

Course Outcomes:

Having completed this module, a student will be able –

CO 1	**Identify** kitchen equipment, hygiene practices, and knife handling techniques while classifying vegetables and fruits for various preparations.	**BT 2**
CO 2	**Demonstrate** fundamental cooking methods, including blanching, boiling, frying, braising, and starch cooking, to prepare basic ingredients.	**BT 3**
CO 3	**Prepare** stocks, thickening agents, basic sauces, and gravies while executing a variety of egg and fish dishes.	**BT 4**
CO 4	**Execute** simple menu preparations, including salads, soups, egg dishes, potato and vegetable preparations, ensuring consistency in taste and presentation.	**BT 5**

Detailed Syllabus:

Modules	Topics / Course content	Periods
I	ORIENTATION (INTRODUCTION TO KITCHEN): Equipment – Identification, Description, Uses & handling, Hygiene - Kitchen etiquettes, Practices, Garbage disposal, Safety and security in kitchen, Smart kitchen equipment basics, induction cooking, digital thermometers Knife Handling precautions, Végétales & Fruits: Vegetables – Classification, Cuts - julienne, jardinière, macédoines, brunoise, paysanne, mignonette, dices, cubes, shred, mirepoix, Preparation of salad dressing	24
II	BASIC COOKING METHODS AND PRE-PREPARATIONS: Blanching of Tomatoes and Capsicum, Preparation of concasse, Boiling, Parboiling (potatoes, Beans, Cauliflower, etc.), Frying - (deep frying, shallow frying, sautéing) Aubergines, Potatoes, etc., Braising - Onions, Leeks, Cabbage, Starch cooking (Rice, Pasta, Potatoes) Basic food preservation, blanching, boiling, steaming, stock preparation	24
III	STOCKS AND THICKENING & BINDING AGENTS: White and Brown stock, Fish stock, Emergency stock, Fungi stock, Thickenings – Roux (White, Blond, Brown), Beurre Manie, Panada, Liaison, Other starch/Protein, Sauce and Gravies: Béchamel, Espagnole, Velouté, Tomato, Hollandaise, Mayonnaise, Basic Gravies – White, Brown EGG & FISH COOKERY - PREPARATION OF VARIETY OF EGG DISHES: Boiled (Soft & Hard), Fried (Sunny side up, Single fried, Bull's Eye, Double fried), Poaches, Scrambled, Omelette (Plain, Stuffed, Spanish), En	24

	cocotte (eggs Benedict), Fish: Identification and Classification, Cuts & Folds of Fish	
IV	DEMONSTRATION & PREPARATION OF SIMPLE MENU: Simple Salads & Soups: Cole slaw, Potato salad, Beet root salad, Green salad, Fruit salad, Consommé, Broth; Simple Egg preparations: Scotch egg, Assorted omelletes, Oeuf Florentine, Oeuf Benedict, Oeufs Farcis, Oeuf Portuguese, Oeuf Durs Mayonnaise; Simple potato preparations, Boiled, Baked, Mashed, Roasted, French fries, Allumettes, Lyonnaise potatoes; Vegetable preparations, Boiled vegetables, Glazed vegetables, Fried vegetables, Stewed vegetables, Healthy bowls, contemporary breakfast platters, millet snacks **Fuel Conservation & Waste Reduction(SDG 7)**	24

Semester – I
Subject Name: Introduction to Food Production Techniques – I **Type of Course: Major** **Paper Code: HMT192M102** **Course Level: 100** **Course Credit: 3** **Scheme of Evaluation: Theory** **L-T-P-C: 3-0-0-3**

Course Objectives:
The course will enable the students to state the culinary terms and explain the essentials of stock, soups, shortenings and raising agents.

Course Outcomes:

Having completed this module, a student will be able –

CO 1	**To define** different culinary terms	**BT 1**
CO 2	**To explain** culinary history	**BT 2**
CO 3	**To identify** aims and objectives of cooking	**BT 3**
CO 4	**To classify** soups, thickening agents, raising agents and types of sugar	**BT 4**

Detailed Syllabus:

Modules	Topics / Course content	Periods
I	Introduction to cookery-Levels of skills and experiences, Attitudes and behaviour in the kitchen, Personal hygiene, Uniforms & protective clothing, Safety procedure in handling equipment. Food safety, freezing, refrigeration, basic dehydration Culinary history – Origin of modern cookery Hierarchy area of department and kitchen - Classical Brigade, Modern staffing in various category hotels, Roles of executive chef, Duties and responsibilities of various chefs, Co-operation with other departments, Kitchen automation awareness, smart weighing scales	15
II	Culinary terms -List of culinary (common and basic) and Explanation with examples Aims & objects of cooking food, Various textures, Various consistencies, Techniques used in pre-preparation, Techniques used in preparation Basic principles of food production - vegetable and fruit cookery Introduction – classification of vegetables, Pigments and colour changes, Effects of heat on vegetables, Cuts of vegetables, Classification of fruits, Uses of fruit in cookery, Salads and salad dressings Sustainable cooking basics, simple fusion snacks	15
III	Stocks -Definition of stock, Types of stock, Preparation of stock, Recipes, Storage of stocks, Uses of stocks, Care and precautions	15

	Sauces-Classification of sauces, Recipes for mother sauces, Storage & precautions, short cast, choux paste, rough puff (Bakery items) Methods of cooking food- Roasting, Grilling, Frying, Baking, Broiling, Poaching, Boiling, Principles of each of the (Roasting, Grilling, Frying, Baking, Broiling, Poaching, Boiling), care and precautions to be taken, selection of food for each type of cooking. Nutrition & Balanced Diet **(SDG 2)**	
IV	Soups- Classification with examples, Basic recipes of consommé with 10 garnishes, Egg cookery- Introduction to egg cookery, Structure of an egg, Selection of egg, Uses of egg in cookery, Commodities- Shortenings (fats & oils): Role of shortenings, Varieties of shortenings, Advantages and disadvantages of using various shortenings, Fats & oil – types, varieties. Raising agents: Classification of raising agents, Role of raising agents, Actions and reactions, Thickening agents: Classification of thickening agents, Role of thickening agents. Sugar: Importance of sugar, Types of sugar, Cooking of sugar.	15

Semester – II
Subject Name: Food & Beverage Service Theory – II **Type of Course: Major** **Paper Code: HMT192M201** **Course Level: 100** **Course Credit: 2** **Scheme of Evaluation: Theory** **L-T-P-C: 2-0-0-2**

Course Objective:
The course will enable the students to explain different types of menus used in hotels, explain its planning and state the accompaniments and the types of services related to it. Also, they will be able to describe the sales and control systems followed in F& B operations.

Course Outcomes:

Having successfully completed this module, a student will be able –

CO 1	**To define** the meaning of Menu and Menu Planning.	BT 1
CO 2	**To explain** various types of Menus and how to prepare one	BT 2
CO 3	**To develop** an understanding of service preparation	BT 3
CO 4	**To classify** various types and brands of tobacco	BT 4

Detailed Syllabus:

Modules	Topics / Course content	Periods
I	Meals & menu planning: Origin of menu, Objectives of menu planning, Types of menus, Courses of French classical menu-Sequence, examples from each course, cover of each course, Accompaniments, French names of dishes, Types of meals, early morning tea, breakfast (English, American, Continental, Indian), brunch, lunch, afternoon/high tea, dinner, supper.	12
II	Preparation for service-Organising mise-en-scene, Organising mise-en-place, Types of food service - silver service, pre-plated service, Cafeteria service, Room service, Buffet service, Gueridon service, Lounge service	12

III	Sale control system- KOT/bill control system (manual): triplicate checking system, duplicate checking system, single order sheet, quick service menu & customer bill. Making bill, Cash handling equipment, Record keeping (restaurant cashier)	12
IV	Tobacco- History, Processing for cigarettes, pipe tobacco & cigars, Cigarettes – types and brand names, Pipe tobacco – types and brand names, Cigars – shapes, sizes, colours and brand names, Care and storage of cigarettes & cigars, Beverage **Management & Responsible Service (SDG 3)**	12

Course Objective:

The course aims to introduce students to the **basic principles of nutrition and food science** with practical relevance to **hotel kitchens, food production, and menu planning**. Emphasis is placed on understanding nutrients, food groups, food safety, and the role of nutrition in health and hospitality operations.

Course Outcomes:

Having successfully completed this module, a student will be able –

CO1	Understand basic concepts of nutrition and the role of food in human health.	BT1
CO2	Identify macro and micro nutrients and their functions in the body.	BT2
CO3	Apply nutritional knowledge in menu planning and food production.	BT3
CO4	Understand basic food science principles related to cooking and processing.	BT4

Detailed Syllabus:

Modules	Topics / Course content	Periods
I	**Introduction to Nutrition** • Meaning and importance of nutrition • Relationship between food, nutrition, and health • Basic food groups Functional foods, fermentation basics, nutrient preservation **Malnutrition & Therapeutic Nutrition SDG 2**	12
II	**Macronutrients** • Carbohydrates – types, sources, functions • Proteins – classification, sources, functions • Fats – Types, sources, functions	12

III	**Micronutrients** • Vitamins – fat soluble & water soluble • Minerals – calcium, iron, iodine (basic overview) • Deficiency diseases of all major vitamins	12
IV	**Food Science Basics** • Composition of food • Effect of heat on carbohydrates, proteins, and fats • Cooking methods and nutrient loss Wellness cuisine, probiotic beverages, healthy plated meals Nutrition analysis software, AI-based calorie tracking concepts **Functional Foods & Wellness SDG 3**	12

Course Objective:

This course introduces students to the preparation and service of tea, coffee, and other non-alcoholic beverages, along with specialized food service techniques. It develops proficiency in wine service, including mise-en-place, accessories, and equipment handling. The course also trains students in the service of aperitifs, spirits, and liqueurs while enhancing their ability to pair wines with various cuisines.

Course Outcomes:

Having completed this module, a student will be able –

CO 1	**Demonstrate** the preparation and service of tea, coffee, and other non-alcoholic beverages while understanding their significance in food service.	BT 3
CO 2	**Execute** professional service techniques for wines, aperitifs, spirits, and liqueurs, including appropriate glassware, equipment, and service styles.	BT 4
CO 3	**Illustrate** the correct table lay-up, accompaniments, and service procedures for classical hors d'oeuvres, cheese, and desserts.	BT 3
CO4	**Design** menus with appropriate wine pairings for international and Indian regional cuisines, ensuring proper presentation and service.	BT 5

Detailed Syllabus:

Modules	Topics / Course content	Periods
I	Tea/ Coffee/ other non-alcoholic beverages preparation & service SPECIAL FOOD SERVICE - (cover, accompaniments & service. table lay–up & service- Classical Hors d' oeuvre (Oyster, Caviar, Smoked salmon, Pate de Foi Gras/ snail, Melon, Grapefruit, asparagus), Cheese, dessert (fresh Fruits & nuts)	16
II	SERVICE OF WINE, MISE EN PLACE, ACCESSORIES & EQUIPMENT - Task-01- service of red wine, service of wine/ rose wine, service of sparkling wine, service of Fortified wine, service of Aromatized wines. (care/ precautions of wines). service of cider, Perry & sake	16

III	SERVICE OF APERETIF, MISE-EN-PLAC, GLASSWARE & EQUIPMENTS- Task-01: Service of bitters, Task 02: Service of Vermouths. SERVICE OF SPIRITS- Service styles- neat or straight-up/ on the rocks/ with appropriate mixers, Task-01: service of Whiskey, Task-02: service of Vodka, Task-03: service of Rum, Task-04: service of Gin, Task-05: service of Brandy, Task-06: service of Tequila & Task-07: service of other spirits	16
IV	SERVICE OF LIQUEURE-- Service Styles- neat/ on the rocks/ with crème/ frappe. MATCHING WINES WITH FOOD- Task-01: Menu Planning with accompanying wines-International cuisine, Indian regional cuisine, Task-02: Table laying and service of menu with accompanying wines. International cuisine, Indian regional cuisine	16

Subject Name: Front Office Lab - II **Type of Course: Major** **Paper Code: HMT192M212** **Course Level: 100** **Course Credit: 1** **Scheme of Evaluation: Practical** **L-T-P-C: 0-0-2-1**

Course Objective:

This course aims to develop practical proficiency in front office accounting, guest checkout procedures, and financial reconciliation. Students will learn to handle payment methods, verify guest bills, process refunds, perform night audits, and manage real-world scenarios like billing disputes and late checkouts, enhancing their problem-solving and revenue management skills.

Course Outcomes:

Having completed this module, a student will be able –

CO 1	**Demonstrate** proficiency in handling guest checkout procedures and financial transactions.	BT 2
CO 2	**Apply** accounting formats and night audit processes in front office operations.	BT 3
CO 3	**Analyse** guest billing, payment methods, and refund policies effectively.	BT 5
CO4	**Handle** real-world scenarios like billing disputes, late checkouts, and overbookings professionally.	BT 6

Detailed Syllabus:

Modules	Topics / Course content	Periods
I	Accounting formats Introduction to checkout procedures, Formats used at checkout Filling out formats such as guest folios, credit card charge slips, and vouchers. Handling Different Payment Methods – Cash, Credit/Debit Cards, Digital Payments, City Ledger Transactions.	16
II	Guest Checkout Process – Step-by-step demonstration of front desk procedures for individual and group checkouts. Verification of Guest Bills – Checking charges, discounts, and additional services used. Practical Use of Checkout Formats – Preparing and filling out guest settlement vouchers, paid-out vouchers, and late checkout requests.	16

	Refund & Cancellation Policy – Handling early departures, refund processing, and no-show charges.	
III	Post-Departure Formalities – Updating guest history records, filing folios, and room status updates. Introduction to the Night Audit Process – Understanding its importance in financial reconciliation. Step-by-step night Audit Demonstration – Revenue postings, transaction verification, generating night audit reports. Practical Use of Formats – Hands-on experience with night audit reports, daily revenue reports, and discrepancy reports.	16
IV	SOP-Based Role-Playing – Handling late checkouts, overbookings, VIP departures, and guest complaints. Emergency Situations – Dealing with lost & found, disputed bills, and system failures. Group Presentations & Case Studies – Scenario-based role plays on checkout disputes, refunds, and unexpected guest requests. Numerical Exercises – Calculating late checkout charges, room revenue, occupancy percentage, and forecasting revenue using real-time hotel data formats.	16

Semester – II
Subject Name: Food Production Lab – II **Type of Course: Skill Enhancement Course** **Paper Code: HMT192S212** **Course Level: 100** **Course Credit: 2** **Scheme of Evaluation: Practical** **L-T-P-C: 0-0-4-2**

Course Objective:

This course aims to provide hands-on expertise in meat and poultry identification, selection, and processing. Students will learn to prepare authentic Indian and continental dishes, including gravies, soups, and salads. The course emphasizes fundamental culinary techniques for meat, poultry, vegetables, and potatoes, fostering essential skills for professional kitchens.

Course Outcomes:

Having completed this module, a student will be able –

CO 1	**Identify** various meat and poultry cuts, classifications, and processing techniques.	BT 1
CO 2	**Prepare** Indian cuisine, including popular gravies, rice dishes, breads, and snacks.	BT 3

CO 3	**Demonstrate** the preparation of continental salads, soups, and international dishes.	BT 3
CO4	**Create** diverse meat, poultry, potato, and vegetable-based preparations using standard techniques.	BT 6

Detailed Syllabus:

Modules	Topics / Course content	Periods
I	MEAT – Identification of various cuts, Identification of basic cuts-Lamb and Pork Chops, Tornado, Fillet, Steaks and Escalope, Poultry-Identification & Classification Cuts of chicken IDENTIFICATION, SELECTION AND PROCESSING of Meat and poultry, Slaughtering and dressing	24
II	PREPARATION OF INDIAN MENU- POPULAR INDIAN GRAVIES – Makhani, Kadai, Lababdar, Rice dishes, Breads, Main course, Basic Vegetables, Paneer, Chicken Preparations, Indian Breakfast Items. Indian snacks Emulsification, advanced cooking methods, bakery science	24
III	PREPARATION OF CONTINENTAL MENU. SALADS & SOUPS- Waldorf salad, Russian salad, salade niçoise, Cream (Peas, Spinach, Mushroom, Tomato, Chicken), Puree (Lentil, Peas, Carrot), & International soups. Temperature-controlled cooking systems	24
IV	CHICKEN AND MUTTON PREPARATIONS-Entrée-Lamb stew, hot pot, shepherd's pie, grilled steaks & lamb/Pork chops, Roast chicken, grilled chicken, Leg of Lamb. SIMPLE POTATO PREPARATIONS- Basic potato dishes, VEGETABLE PREPARATIONS- Basic vegetable dishes Gourmet sandwiches, plated Indian snacks, fusion appetizers	24

Semester – II
Subject Name: Indian Cuisine and Culinary Arts **Type of Course: VAC-II (Open)** **Paper Code: HMT192M202** **Course Level: 100** **Course Credit: 3** **Scheme of Evaluation: Theory** **L-T-P-C: 2-1-0-3**

Course Objective:
The course will enable the students to identify different types of soups, mother sauces, cereals, and also will enable them to describe various types of meat cookery and explain the various types of condiments, spices and pastries.

Course Outcomes:

Having successfully completed this module, a student will be able –

CO 1	**To list** different types of soups, mother sauces, cereals, spices, etc	BT 1
CO 2	**To classify** various types of meat cookery	BT 2
CO 3	**To identify** the various types of condiments, spices and pastries	BT 3

Detailed Syllabus:

Modules	Topics / Course content	Periods
I	**Indian Culinary Heritage SDG 11** Soups- Basic recipes other than consommé with menu examples, broths, bouillon, puree, cream, velouté, chowder bisque, etc, Garnishes and accompaniments, international soups. Sauces & gravies- Difference between sauce and gravy, Derivatives of mother sauces, Contemporary & proprietary Meat cookery- Introduction to meat cookery, Variety meats (offal's) Poultry (with menu examples of each) Fish cookery- Introduction to fish cookery, Classification of fish with examples, Cuts of fish with menu examples, Selection of fish and shellfish, Cooking of fish (effects of heat) Regional food processing techniques, spice preservation	12
II	Rice, cereals and pulses- Introduction, Classification and identification, Cooking of rice, cereals and pulses, Varieties of rice and other cereals Pastry- Short crust, Laminated, Choux, Hot water/rough puff, recipes and methods of preparation, differences, uses of each pastry, care to be taken while preparing pastry, role of each ingredient, temperature of baking pastry	12

	Flour-Structure of wheat, Types of Wheat, Types of Flour, Processing of Wheat – Flour, Uses of Flour in Food Production, Cooking of Flour (Starch), Simple breads, Principles of bread making, Simple yeast breads, Role of each ingredient in break making, baking temperature and its importance	
III	Pastry creams- Basic pastry creams, Uses in confectionery, Preparation and care in production Basic commodities-milk: Introduction, Processing of milk, Pasteurisation – homogenisation, Types of milk – skimmed and condensed, Nutritive value Cream: Introduction, Processing of cream, Types of cream Cheese: Introduction, Processing of cheese, Types of cheese, Classification of cheese, curing of cheese, Uses of cheese, Butter: Introduction, Processing of butter, Types of butter. Digital recipe management systems	12
IV	Basic Indian cookery- condiments & spices: Introduction to Indian food, Spices used in Indian cookery, Role of spices in Indian cookery, Indian equivalent of spices (names). Fusion Indian cuisine, millet-based recipes Masalas: Blending of spices, Different masalas used in Indian cookery, Wet masalas, Dry masalas, Composition of different masalas, Varieties of masalas available in regional areas, Special masala blends. Kitchen organization and layout: General layout of the kitchen in various organisations, Layout of receiving areas, Layout of service and wash up	12

Course Objective:

The objectives of the course are to introduce students to the concept of quantity food production, institutional and industrial catering and regional Indian Cuisine

Prerequisites: Must complete the course credit of previous semesters.

Course Outcomes:

Having successfully completed this module, a student will be able –

CO 1	**To identify** equipment's required for bulk food preparations.	BT 1
CO 2	**Illustrate** the methods of volume feeding	BT 2
CO 3	**Explain and Construct** menu planning for industrial and institutional catering	BT 3
CO 4	**Describe** various regional cuisines of India	BT 4

Detailed Syllabus:

Modules	Topics / Course content	Periods

I	QUANTITY FOOD PRODUCTION EQUIPMENT A. Equipment required for mass/volume feeding B. Heat and cold generating equipment C. Care and maintenance of this equipment D. Modern developments in equipment manufacture E. Sous-vide cooking, cryogenic freezing introduction MENU PLANNING A. Basic principles of menu planning – recapitulation B. Points to consider in menu planning for various volume feeding outlets such as Industrial, Institutional, Mobile Catering Units C. Planning menus for • School/college students • Industrial workers • Hospitals • Outdoor parties • Theme dinners • Transport facilities, cruise lines, airlines, railway D. Nutritional factors for the above	15
II	INDENTING • Principles of Indenting for volume feeding • Portion sizes of various items for different types of volume feeding • Modifying recipes for indenting for large scale catering • Practical difficulties while indenting for volume feeding AI-assisted recipe standardization, inventory monitoring systems VOLUME FEEDING Institutional and Industrial Catering, Types of Institutional & Industrial Catering Problems associated with this type of catering, Hospital Catering Highlights of Hospital Catering for patients, staff, visitors Diet menus and nutritional requirements.	15
III	OFF PREMISES Catering Reasons for growth and development Menu Planning and Theme Parties Concept of a Central Production Unit Problems associated with off-premises catering	15
IV	REGIONAL INDIAN CUISINE A. Introduction to Regional Indian Cuisine B. Heritage of Indian Cuisine C. Factors that affect eating habits in different parts of the country D. Cuisine and its highlights of different states/regions/communities to be discussed under: Geographic location E. Deconstructed Indian cuisine, modern buffet presentation	15

Semester – III
Subject Name: Front Office Lab - III **Type of Course: Major** **Paper Code: HMT192M312** **Course Level: 200** **Course Credit: 1** **Scheme of Evaluation: Practical** **L-T-P-C: 0-0-2-1**

Course Objective:

This course aims to equip students with advanced skills in front office and rooms division management, focusing on guest handling, reservations, and seamless check-in/check-out procedures. Students will develop proficiency in guest accounting, billing, night auditing, and revenue management to enhance financial performance. Emphasis is placed on mastering concierge services, VIP guest management, safety protocols, and crisis handling to elevate guest experiences. Additionally, the course enhances technical expertise in property management systems (PMS), automation, and digital front office operations, preparing students to streamline hospitality services while integrating emerging industry trends and best practices.

Course Outcomes:

Having completed this module, a student will be able to –

CO 1	**Demonstrate** proficiency in advanced guest handling, reservation management, and service recovery techniques.	BT 3
CO 2	**Manage** financial transactions, billing procedures, and night auditing processes with accuracy and efficiency.	BT 4
CO 3	**Execute** concierge services, VIP guest handling, and crisis management strategies to enhance guest experiences.	BT 3

CO 4	**Operate** Property Management System (PMS) software for seamless front office operations, data management, and financial reporting.	BT 5

Detailed Syllabus:

Modules	Topics / Course content	Periods
I	**Advanced Guest Handling & Front Office Operations** **Front Office Structure & Professionalism:** Understanding hierarchy, departmental coordination, and industry standards **Grooming & Etiquette:** Mastering professional communication, body language, and service excellence **Reservation Management:** Handling corporate bookings, OTA reservations, group check-ins, and pre-arrival preparations **Guest Registration & Check-In Procedures:** Digital check-ins, biometric authentication, VIP protocols, and special requests handling **Handling Guest Relations & Service Recovery:** Managing guest complaints, conflict resolution strategies, and personalized guest experiences	8
II	**Financial Transactions, Billing & Night Auditing** **Guest Accounting & Financial Transactions:** Managing cash flow, credit card authorizations, foreign exchange, and ledger reconciliation **Billing & Settlement Procedures:** Split billing, express check-out, folio adjustments, and tax applications **Advanced Night Auditing:** Reconciling accounts, revenue forecasting, and error detection in financial reports **Revenue Management Principles:** Dynamic pricing strategies, demand forecasting, and up-selling techniques	8
III	**Concierge & Guest Services Excellence** **Concierge Desk Management:** Travel bookings, itinerary planning, local sightseeing arrangements, and transportation services **Handling VIP & Long-Stay Guests:** Personalized services, guest history tracking, and loyalty programs **Security & Safety Protocols:** Handling emergencies, lost & found management, and guest confidentiality **Crisis Management & Emergency Response:** Fire drills, evacuation procedures, and managing disruptive situations	8

IV	Property Management System (PMS) & Digital Front Office Operations **Hands-on Training in PMS Software (IDS):** • Creating and modifying guest profiles • Managing reservations, room status, and availability updates • Automated check-in and check-out processes • Generating financial and operational reports	8

Course Objective:

This course aims to equip students with advanced housekeeping skills, focusing on professional cleaning techniques, guest room preparation, laundry operations, and hygiene protocols. It emphasizes the use of mechanized tools, sustainable practices, pest control, and safety measures to maintain high-quality standards in hospitality operations.

Course Outcomes:

Having completed this module, a student will be able to –

CO 1	**Demonstrate** proficiency in advanced cleaning techniques and housekeeping practices	BT 3
CO 2	**Analyse** and execute professional bed-making and room preparation procedures	BT 4
CO 3	**Evaluate** and manage laundry operations, linen inventory, and valet services	BT 5
CO 4	**Create** and implement pest control, hygiene, and safety protocols in housekeeping operations	BT 6

Detailed Syllabus:

Modules	Topics / Course content	Periods
I	**Advanced Cleaning Techniques & Equipment Handling** In-depth orientation to the housekeeping department's role and responsibilities Professional handling and maintenance of cleaning equipment: • **Mechanized cleaning tools** – Scrubbing machines, extractors, polishers • **Manual cleaning tools** – Microfiber cloths, squeegees, and dusters • **Application of cleaning agents** based on surface types (wood, marble, glass, upholstery, carpets) **Professional housekeeping practices:** • Performed daily, periodic, and deep cleaning procedures for guest rooms and public areas • Special cleaning procedures (high-touch surfaces, sanitization, air purification) • Waste management, eco-friendly cleaning, and sustainability in housekeeping	8
II	**Professional Bed Making & Guest Room Preparation** • **Standard operating procedures for bed making:** o Luxury hotel bedding setup (hospital corners, pillow placement, turndown service) o Special bed-making techniques for VIP & themed rooms • **Guest room preparation & setup:** o Setting up different room categories (single, double, suites, villas) o **Customization & personalization** – handling guest preferences and special requests • **Room inspection & quality control:** o Housekeeping checklists and standardization techniques o Identifying and reporting maintenance issues	8
III	**Advanced Laundry & Linen Management** • **Professional laundry operations:** o Laundry cycle: sorting, washing, drying, ironing, folding, and distribution o Handling of delicate fabrics and stain removal techniques o Advanced stain removal and chemical usage • **Guest laundry services & valet operations:** o Laundry labelling and packaging techniques o Express laundry, dry cleaning, and pressing services o SOP for handling lost-and-found items in laundry • **Linen room operations & inventory management:** o Linen counting, par stock calculations, and replacement procedures	8

	○ Uniform management and control measures for staff attire ○ Sustainability in laundry operations (water recycling, biodegradable detergents)	
IV	**Pest Control, Hygiene, & Safety Protocols** • **Pest management in hotels:** ○ Identifying common hotel pests (bed bugs, cockroaches, rodents, termites) ○ Preventive measures and safe chemical application • **Health and safety regulations in housekeeping:** ○ Fire safety protocols (fire extinguisher usage, emergency evacuation)	8

Semester – III
Subject Name: Rooms Division – III **Type of Course: Minor** **Paper Code: HMT192N301** **Course Level: 200** **Course Credit: 3** **Scheme of Evaluation: Theory** **L-T-P-C: 2-1-0-3**

Course Objective:

The course will enable the students to handle property management software and also to describe the hotel accounting and night auditing procedures. Also, it will enable them to describe the procedures adapted for linen room management in a hotel and state various methods and procedures for flower arrangements (fresh, dry and artificial).

Course Outcomes:

Having completed this module, a student will be able –

CO 1	**To define** the property management system (PMS)	BT 1
CO 2	**To demonstrate** the hotel accounting, night auditing and procedures adapted for room linen management in a hotel	BT 2
CO 3	**To apply** various methods and procedures for flower arrangements-fresh, dry and artificial.	BT 3

Detailed Syllabus:

Modules	Topics / Course content	Periods
I	**COMPUTER APPLICATION IN FRONT OFFICE OPERATION** A. Role of information technology in the hospitality industry B. Factors for need of a PMS in the hotel	16
II	**FRONT OFFICE (ACCOUNTING)** A. Accounting Fundamentals B. Guest and non-guest accounts C. Accounting system Non-automated – Guest weekly bill, Visitors tabular ledger Semi-automated Fully automated **CHECK OUT PROCEDURES** Guest accounts settlement - Cash and credit - Indian currency and foreign currency - Transfer of guest accounts **NIGHT AUDITING** A. Functions B. Audit procedures (non-automated, semi-automated and fully automated)	16
III	**LINEN ROOM** A. Activities of the Linen Room B. Layout and equipment in the Linen Room C. Selection criteria for various Linen Items & fabrics suitable for this purpose D. Purchase of Linen E. Calculation of Linen requirements F. Linen control-procedures and records G. Stocktaking-procedures and records H. Recycling of discarded linen I. Linen Hire **UNIFORMS** A. Advantages of providing uniforms to staff B. Issuing and exchange of uniforms; type of uniforms C. Selection and designing of uniforms D. Layout of the Uniform room	16

IV	**LAUNDRY** A. Commercial and On-Site Laundry B. Flow process of Industrial Laundering-OPL C. Stages in the Wash Cycle D. Laundry Equipment and Machines E. Layout of the Laundry F. Laundry Agents G. Dry Cleaning H. Guest Laundry/Valet service **FLOWER ARRANGEMENT** A. Flower Arrangements in Hotels B. Equipment and material required for flower arrangement C. Conditioning of plant material D. Styles of flower arrangements E. Principles of design as applied to flower arrangement	16

Semester – IV
Subject Name: Housekeeping Lab- IV **Type of Course: Major** **Paper Code: HMT192M413** **Course Level: 200** **Course Credit: 1** **Scheme of Evaluation: Practical** **L-T-P-C: 0-0-2-1**

Course Objective:

This course aims to enhance students' practical competence in advanced housekeeping operations. It focuses on mastering guestroom servicing, linen and laundry operations, public area upkeep, and control desk responsibilities. The course emphasizes hands-on learning, grooming professionalism, and coordination skills for real-world housekeeping challenges.

Course Outcomes:

Having completed this module, a student will be able –

CO 1	**Know** advanced guestroom cleaning and servicing procedures.	BT 1
CO 2	**Perform** laundry and linen handling operations using proper techniques	BT 3
CO 3	**Operate** and manage housekeeping control desk procedures and records	BT 4
CO 4	**Evaluate** guest complaints and provide professional housekeeping solutions	BT5

Detailed Syllabus:

Modules	Topics / Course content	Periods
I	- Cleaning of occupied and departure rooms - Bathroom cleaning and replenishment - Use and handling of cleaning agents and checklists	8
II	-Sorting and classification of linen -Laundry operations: washing, drying, ironing -Stain removal techniques and use of machines - Inventory control and linen inspection	8
III	- Public area cleaning: lobbies, elevators, washrooms - Use of mechanized equipment (scrubber, vacuum, etc.) - Floral arrangements and seasonal decoration - Deep cleaning and eco-friendly practices	8
IV	-Guest complaint and lost & found handling -Preparing duty rosters and allocation - Role-play on control desk operations - Interdepartmental coordination (FO, Maintenance)	8

Semester – IV

Subject Name: Food Production Lab – IV
Type of Course: Minor
Paper Code: HMT192N412
Course Level: 200
Course Credit: 2
Scheme of Evaluation: Practical
L-T-P-C: 0-0-4-2

Course Objective:

This course aims to develop students' expertise in classical and contemporary European culinary preparations, with a focus on French and international cuisine. Students will apply advanced cooking techniques, analyze ingredient pairings, and demonstrate proficiency in preparing soups, main courses, accompaniments, and desserts, ensuring a well-rounded understanding of fine dining gastronomy.

Course Outcomes:

Having completed this module, a student will be able –

CO 1	**Recall** classical European culinary terminologies, ingredients, and standard preparation methods.	BT 1
CO 2	**Apply** fundamental cooking techniques to prepare soups, entrées, side dishes, and desserts with precision.	BT 3
CO 3	**Evaluate** the quality of prepared dishes based on texture, flavour balance, presentation, and authenticity.	BT 5
CO 4	**Design** classical European menus incorporating appropriate course sequencing and plating aesthetics.	BT6

Semester – V

Subject Name: Internship
Type of Course: Internship
Paper Code: HMT192M521
Course Level: 300
Course Credit: 20
Scheme of Evaluation: Project+Viva

Course Objective:

This course aims to provide students with hands-on industry exposure by integrating theoretical knowledge with practical training in a real-world hospitality environment. Through structured industrial training in a reputed five-star hotel in India or abroad, students will:

- Gain **first-hand experience in the four core operational departments**—Front Office, Housekeeping, Food & Beverage Service, and Food Production, enhancing their professional competencies. Exposure to industrial food processing systems and sustainability practices
- Develop **practical skills, adaptability, and problem-solving abilities** by working in a dynamic hospitality setting. Cloud kitchen concepts, experiential dining
- Understand **industry standards, guest service excellence, and operational best practices** to bridge the gap between academic learning and professional expectations. AI kitchen operations, robotics in food production, POS integration
- Cultivate **teamwork, communication, and leadership skills** essential for a successful career in the hospitality industry.
- Reflect on their learning experience through **a structured presentation and daily logbook**, demonstrating their ability to document, analyze, and asticulate key insights gained during the training.
- Internship for 17 weeks

Semester – VI

Subject Name: Food & Beverage Service Management
Type of Course: Major
Paper Code: HMT192M601
Course Level: 300
Course Credit: 4
Scheme of Evaluation: Theory
L-T-P-C: 3-1-0-4

Course Objective:

The course aims to equip students with advanced knowledge and skills required for managing food & beverage service operations efficiently, develop expertise in bar operations, cocktail and mocktail preparation, and modern mixology techniques, and enhance their ability to apply management strategies, SOPs, and beverage trends to optimize service quality and customer satisfaction.

Having completed this module, a student will be able –

CO 1	**Understand** the key concepts of food & beverage outlet management, including supervisory skills, efficiency, and SOPs.	BT 1
CO 2	**Apply** bar operational knowledge in managing bar areas, stock control, and efficient staffing.	BT 3
CO 3	**Analyse** various cocktail and mocktail preparation techniques, classifications, and presentation styles for effective service.	BT 4
CO 4	**Evaluate and create** innovative beverage concepts using advanced mixology techniques and menu engineering strategies for enhanced customer experience.	BT 5 & 6

Detailed Syllabus:

Modules	Topics / Course content	Periods
I	**Managing Food & Beverage Outlet** A. Supervisory Skills • Roles and responsibilities of a food & beverage supervisor • Leadership styles and their impact on team performance • Communication skills for effective management • Delegation and motivation techniques • Conflict resolution and problem-solving in food & beverage service	16

	B. Developing Efficiency • Time management and resource optimization • Staff training and development techniques • Implementing productivity and quality standards • Cost control strategies • Managing peak hours and ensuring smooth service flow **C. Standard Operating Procedure (SOP)** • Importance of SOPs in maintaining service consistency • Developing SOPs for different food & beverage outlets • SOPs for customer service, order-taking, and service delivery • Monitoring and updating SOPs regularly • Ensuring compliance with SOPs among staff	
II	**Bar Operations** A. Types of Bar • Cocktail Bar: Features, service style, and cocktail preparation • Dispense Bar: Operational style, dispensing methods, and alcohol service B. Area of Bar • Understanding the physical layout and design of a bar • Importance of space management for efficient bar operations C. Front Bar • Role of the front bar in customer service • Interaction between bartenders and customers • Bar menu management D. Back Bar • Storage and organization of alcohol and beverages • Safety and hygiene practices in the back bar E. Under Bar	16

	• Equipment and tools: Speed Rack, Garnish Containers, Ice Wells • Bar essentials and maintaining proper inventory F. Bar Stock • Inventory management techniques • Stock rotation and control • Recordkeeping and stock taking G. Bar Control • Preventing pilferage and wastage • Control measures for maintaining stock levels • Pricing strategies and profit margins H. Bar Staffing • Types of bar staff and their duties (bartenders, bar backs, etc.) • Train staff in drink preparation, customer service, and safety I. Opening and Closing Duties • Detailed checklist for opening and closing a bar • Cleaning, stocking, and safety procedures • Ensuring the bar is secure at the end of service	
III	**Cocktail and Mocktail Preparation & Service** A. Introduction to Cocktails and Mocktails • Definition and historical evolution • Differences between cocktails and mocktails • The role of mixology in modern beverage service B. Cocktail Preparation • Classification of cocktails (shaken, stirred, blended, built, layered) • Base spirits and their influence on cocktail flavours • Standard recipes, techniques, and presentation styles for classic cocktails • Popular cocktails: Martini, Margarita, Old Fashioned, Mojito, Cosmopolitan, Daiquiri, etc. C. Mocktail Preparation • Importance of non-alcoholic beverages in food & beverage service • Ingredients and mixing techniques for mocktails	16

	• Popular mocktail recipes: Virgin Mojito, Shirley Temple, Mojito, Fruit Punch, Pina Colada (non-alcoholic), etc. • Creative garnishing and presentation styles D. Tools, Equipment, and Glassware • Essential bar tools and their uses (shakers, muddlers, jiggers, strainers, etc.) • Importance of glassware in drink presentation • Pairing cocktails/mocktails with appropriate glassware	
IV	**Advanced Mixology & Beverage Trends** A. Advanced Cocktail Techniques • Molecular mixology (foams, smoke infusions, sphere cocktails) • Infusions, fat-washing, and barrel-aging in cocktail preparation • Sustainable and eco-friendly cocktail trends B. Beverage Pairing & Menu Engineering • Principles of pairing cocktails/mocktails with food • Creating a balanced beverage menu for different service styles (e.g., fine dining, casual dining, luxury bars) • Seasonal and themed cocktail/mocktail menus C. Bar Innovation & Customer Experience • The role of a mixologist in enhancing guest experience • Personalizing cocktail/mocktail experiences for customers • Use of technology and automation in modern bar operations **Responsible Service Practices (Alcohol, Health & Safety)** *(SDG 3)*	16

Semester – VI

Subject Name: Rooms Division Management
Type of Course: Major
Paper Code: HMT192M603
Course Level: 300
Course Credit: 4
Scheme of Evaluation: Theory
L-T-P-C: 3-1-0-4

Course Objective:

The course "Rooms Division Management" aims to equip students with advanced knowledge and skills in managing front office and housekeeping operations, ensuring seamless guest experiences and operational efficiency. It covers key aspects such as yield management, timeshare and vacation ownership, guest safety and security, and concierge services, enabling students to optimize revenue and enhance customer satisfaction. Additionally, the course delves into interior decoration, guest room layout, and housekeeping safety protocols, providing insights into creating aesthetically pleasing and functionally efficient spaces. By integrating both front office and housekeeping management, students will develop a holistic understanding of the rooms division, preparing them for leadership roles in the hospitality industry.

Course Outcomes:

Having completed this module, a student will be able to –

CO 1	**Understand** the principles of yield management, timeshare, guest safety, and housekeeping operations in the hotel rooms division.	BT 1
CO 2	**Apply** revenue management techniques, security protocols, and guest interaction strategies to enhance operational efficiency in the front office and housekeeping departments.	BT 3
CO 3	**Analyse** the impact of interior decoration, guest room layouts, and design elements on guest satisfaction and hotel branding.	BT 4
CO 4	**Evaluate and create** effective room division management strategies by integrating revenue optimization, guest services, safety measures, and design aesthetics to improve hotel operations.	BT 5

Detailed Syllabus:

Modules	Topics / Course content	Periods
I	**Yield Management and Guest Safety & Security** **A. Yield Management in Rooms Division** • Concept and importance • Applicability to rooms division • Capacity management • Discount allocation and duration control • Measuring yield and revenue optimization • Potential high and low demand tactics • Yield management software • Yield management team **B. Guest Safety & Security in Hotels** • Importance of security systems • Safe deposit procedures • Key control and management • Emergency response procedures (accident, illness, theft, fire, bomb threats) • Prevent crime and handle security incidents	16
II	**Timeshare, Vacation Ownership, and Guest Relations** **A. Timeshare & Vacation Ownership** • Definition and types of timeshare options • Challenges in marketing timeshare business • Advantages & disadvantages of timeshare ownership • Role of exchange companies (RCI, Intervals International) • Improving the timeshare/referral/condominium concept in India (Government & industry role) **B. Guest Interaction and Concierge Services** • Providing information about the hotel, city, sightseeing, car rentals, historical places, banks, airlines, travel agents, shopping centres, and places of worship • Handling guest inquiries and complaints professionally • Guest departure process (Cashier, Bills Section, Bell Desk)	16
III	**Housekeeping Safety, Security, & Interior Decoration** **A. Safety and Security in Housekeeping** • Safety awareness and accident prevention in housekeeping operations • Fire safety and fire-fighting procedures • Emergency preparedness and response plans	16

	B. Interior Decoration & Design Principles – Part I • Elements of design in hotel interiors • Role of colour in décor and types of colour schemes • Window treatments and their aesthetic significance	
IV	**Interior Décor, Guest Room Layout, and Housekeeping Operations** **A. Interior Decoration & Design Principles – Part II** • Lighting and lighting fixtures in hospitality • Floor finishes and their maintenance • Carpet types, selection, and care • Furniture and fittings in guest rooms • Accessories and décor enhancements **B. Layout and Design of Guest Rooms** • Room sizes and furniture dimensions • Furniture arrangement principles • Principles of design in guest room layouts • Refurbishing and redecorating hotel rooms	16

Semester – VI

Subject Name: Hotel Law
Type of Course: Major
Paper Code: HMT192M604
Course Level: 300
Course Credit: 2
Scheme of Evaluation: Theory
L-T-P-C: 1-1-0-2

Course Objective:

This course aims to provide students with a comprehensive understanding of the legal framework governing the hospitality industry. It covers essential mercantile laws, regulatory requirements, licensing procedures, taxation policies, food safety regulations, and ethical business practices. By exploring legal compliance, corporate governance, and industry-specific legislation, students will develop the necessary knowledge to navigate legal challenges, ensure smooth hotel operations, and uphold ethical standards in hospitality management.

Course Outcomes:

Having completed this module, a student will be able to –

CO 1	**Understand** fundamental mercantile and hospitality laws, including contract law, partnership law, and industrial regulations applicable to the hotel industry.	BT 1
CO 2	**Apply** knowledge of hotel licensing, permits, and foreign exchange regulations to ensure legal compliance in hotel operations.	BT 3
CO 3	**Analyse** the implications of food safety regulations, taxation laws, and financial policies on hotel business sustainability.	BT 4
CO 4	**Evaluate and develop** ethical business strategies and corporate governance frameworks to enhance operational integrity and social responsibility in the hospitality industry.	BT 5

Detailed Syllabus:

Modules	Topics / Course content	Periods

I	**Introduction to Hospitality Laws and Mercantile Law** **Introduction to Law:** Meaning, Definition, Objectives, and Importance of Studying Law. **Mercantile Law and Its Implications in the Hotel Industry:** o Law of Contract – Definition, Essential Elements of a Valid Contract. o Sale of Goods Act – Rights of Seller and Purchaser, Guarantee & Warranty. o Partnership Act – Types, Duties & Responsibilities, Termination of Partnership. o Industrial Law – Overview of Code of Wages Act 2019, Industrial Dispute Act, Payment of Wages Act, and Minimum Wages.	8
II	**Legal Framework for Hotel Business** **Hospitality Laws in India:** Origin, Legal Requirements in Hotel Business. **Licenses and Permits Required for Hotel Operations:** o Types of Licenses, Application Procedures, and Conditions for grants. o Bar and Liquor Licensing Laws – Licensed Premises, General Permitted Hours. o Fire and Safety Licenses, Eating House Licenses, Lift Operation Licenses. o No Smoking Law. **Foreign Exchange Regulations:** Introduction to FEMA 1999, Credit & Debit Card Regulations in Hotels.	8
III	**Food Safety and Taxation in the Hospitality Industry** **Food Safety and Regulation Laws:** o Food Safety and Standards Act 2006 (FSSAI). o Role of Food Safety Officers and Authorities. o Food Regulations and Compliance for Hotels & Restaurants. **Taxes Applicable to the Hospitality Industry:** o Income Tax Act 1961 – Introduction, Heads of Income, Section 80HH (Deductions for New Hotel Businesses). o Goods and Services Tax (GST) Act 2017 – Definition, Structure, Tax Rates on Hotel Services.	8

IV	**Business Ethics and Corporate Governance in Hospitality** **Business Ethics in Hospitality:** o Meaning, Sources, and Factors Influencing Business Ethics. o Code of Ethics and Its Importance in Hotel Operations. o Ethics & Social Responsibility in the Hospitality Industry. **Corporate Governance in Hotels:** o Role of Independent Directors, Majority Voting, Risk Oversight. o Board of Directors and Audit Committee, Investor Perspectives. o Compliance, Documentation, and Governance Policies for Hotels.	8

Semester – VI

Subject Name: Food & Beverage Service Management Lab
Type of Course: Major
Paper Code: HMT192M611
Course Level: 300
Course Credit: 1
Scheme of Evaluation: Practical
L-T-P-C: 0-0-2-1

Course Objective:

This course aims to provide hands-on training in Food & Beverage Service Management, equipping students with practical skills essential for efficient restaurant and bar operations. It focuses on organisational structure, staffing, and supervisory skills through real-world exercises such as duty rosters, job descriptions, and standard operating procedures. Students will gain expertise in conducting briefings, managing service in restaurants, bars, and banquets, and handling guest interactions professionally. Additionally, the course covers bar operations, including designing bar layouts and preparing cocktails, alongside practical aspects of revenue and service management like cost control, menu pricing, and guest experience enhancement. Through case studies, role-playing, and live simulations, students will develop the skills necessary for effective leadership in F&B operations.

Course Outcomes:

Having completed this module, a student will be able to –

CO 1	**Organize and Manage F&B Operations** – Develop organizational structures for various F&B outlets, determine staffing needs, create duty rosters, and draft job descriptions based on industry standards.	BT 3
CO 2	**Demonstrate Supervisory and Service Skills** – Conduct briefings and debriefings, implement Standard Operating Procedures (SOPs), and supervise restaurant, bar, and banquet operations efficiently.	BT 4
CO 3	**Execute Bar and Beverage Service** – Design bar layouts, set up bar operations, and prepare and serve cocktails and mixed drinks with professional techniques.	BT 5
CO 4	**Apply Cost Control and Revenue Management in F&B** – Implement cost-control measures, optimize menu pricing, and enhance guest experience through effective service management.	BT 6

Detailed Syllabus:

Modules	Topics / Course content	Periods

I	**F&B Staff Organization** Classroom Exercise (Case Study method) • Developing Organization Structure of various Food & Beverage Outlets • Determination of Staff requirements in all categories • Making Duty Roster • Preparing Job Description & Specification	16
II	**Supervisory Skills** Conducting Briefing & Debriefing **Restaurant, Bar, Banquets, & Special events** • Drafting Standard Operating Systems (SOPs) for various F&B Outlets • Supervising Food & Beverage operations • Prepared Restaurant Log	16
III	**Bar Operations** Designing & setting the bar Preparation & Service of Cocktails & Mixed Drinks	16
IV	**Practical Aspects of Revenue and Service Management** **Revenue and Cost Control Basics** • Practical exercises on menu pricing and cost analysis • Hands-on training in inventory and stock management **Guest Experience Management** • Role-playing exercises on handling guest complaints • Live simulations on upselling techniques	16

Semester – VI

Subject Name: Rooms Division Management Lab
Type of Course: Major
Paper Code: HMT192M612
Course Level: 300
Course Credit: 1
Scheme of Evaluation: Practical
L-T-P-C: 0-0-2-1

Course Objective:

This course aims to equip students with practical knowledge and hands-on skills required in Front Office and Housekeeping operations. It focuses on guest service procedures, crisis management, staff planning, room rate determination, fire safety, emergency handling, and housekeeping design principles. The course also develops students' ability to analyze operational challenges, execute standard operating procedures (SOPs), and enhance guest experiences through efficient front office and housekeeping management.

Course Outcomes:

Having completed this module, a student will be able to –

CO 1	**Apply** front office and housekeeping SOPs and crisis management techniques to handle real-world guest service challenges effectively.	BT 3
CO 2	**Analyse** staffing requirements, duty rotas, and room rate fixing strategies for hotels of different sizes and operational scales.	BT 4
CO 3	**Evaluate** fire safety, emergency preparedness, and housekeeping procedures to ensure guest safety and efficient hotel operations.	BT 5
CO 4	**Create** well-structured guest room layouts and theme-based decorations that align with industry standards and enhance the guest experience.	BT 6

Detailed Syllabus:

Modules	Topics / Course content	Periods
I	**Standard Operating Procedures in Front Office** 1. SOPs for Guest Arrival, Departure, and Complaint Handling 2. Role Plays & Problem Handling in Guest Interactions 3. Group Discussions on Current Hotel Operative Practices 4. Role Plays on Crisis Management & Emergency Situations: o Fire o Bomb Threat o Theft by Guest o Death in Hotel	16

	○ Sick Guest ○ Extra Person Accompanying the Guest at Night ○ Natural disasters ○ Terrorism	
II	**Front Office Operations & Staffing** 1. Calculation of Staff Requirement & Making of Duty Rotas for Small, Medium & Large Hotels with Different Levels of Occupancy 2. Practicing Fixing Room Rates Using: ○ Rules of Thumb Approach ○ Hubbart Formula Approach	16
III	**Housekeeping Procedures & Safety** 1. Standard Operating Procedures in Housekeeping (Skill-based tasks like cleaning and polishing glass, brass, etc.) 2. Fire Safety & Fire Fighting: ○ Safety Measures ○ Fire Drill Demonstration 3. First Aid Procedures in Housekeeping: ○ First Aid Kit Management ○ Dealing with Emergency Situations ○ Maintaining Records	16
IV	**Housekeeping Specialization & Design** 1. Special Decoration (Theme-Based Setup for Hospitality Events): ○ Indenting ○ Costing ○ Planning with Time Split ○ Execution 2. Layout of Guest Rooms: ○ Scale Drawings & Space Planning ○ Earmarking Pillars & Architectural Considerations ○ Specifications for Colors, Furniture, Fixtures, Fittings, Soft Furnishings, and Accessories	16

Semester – VI

Subject Name: Advanced Culinary & Bakery Practices
Type of Course: Minor
Paper Code: HMT192N611
Course Level: 300
Course Credit: 2
Scheme of Evaluation: Practical
L-T-P-C: 0-0-4-2

Course Objective:

This course aims to develop students' expertise in international cuisine and bakery production through hands-on experience. It focuses on enhancing culinary skills by preparing a variety of authentic Chinese and European dishes, emphasizing traditional techniques, ingredient selection, and plating aesthetics. Additionally, the course introduces students to professional bakery practices, covering artisanal bread, classic desserts, and advanced confectionery techniques. Through demonstrations and practical sessions, students will gain proficiency in menu planning, food presentation, and the art of creating wedding and ornamental cakes, preparing them for high-level roles in the culinary and hospitality industry.

Course Outcomes:

Having completed this module, a student will be able to –

CO 1	**Demonstrate** proficiency in international cuisine preparation by mastering traditional cooking techniques and executing a variety of Chinese and European dishes with authenticity.	BT 3
CO 2	**Analyse and evaluate** ingredient selection, menu planning, and presentation techniques to create well-balanced and aesthetically appealing dishes.	BT 4
CO 3	**Create** a range of bakery products, including artisanal bread, desserts, and decorative cakes**,** while applying advanced baking techniques and finishing methods.	BT 5
CO 4	**Design and execute** innovative culinary presentations and bakery items by integrating creativity, flavor profiling, and professional food styling.	BT 6

Detailed Syllabus:

Modules	Topics / Course content	Periods
I	MENU 01 • Prawn Ball Soup • Fried Wantons • Sweet & Sour Pork • Hakka Noodles MENU 02 • Hot & Sour Soup • Beans Sichuan • Stir-fried chicken & Peppers	32

	• Chinese Fried Rice MENU 03 • Sweet Corn Soup • Shao Mai • Tung-Po Mutton • Yangchow Fried Rice MENU 04 • Wanton Soup • Spring Rolls • Stir-Fried Mutton & Celery • Chow Mein MENU 05 • Prawns in Garlic Sauce • Fish Szechwan • Hot & Sour Cabbage • Steamed Noodles	
II	**International** **SPAIN** MENU 06 • Gazpacho • Pollo En Pepitoria • Paella • Fritata De Patata • Pastel De Mazaana **ITLAY** MENU 07 • Minestrone • Ravioli Arabeata • Fettocine Carbonara • Pollo Alla Cacciatore • Medanzane Parmigiane **GERMANY** MENU 08 • Linsensuppe • Sauerbaaten • Spatzale	32

Semester – VI

Subject Name: Facility Planning
Type of Course: Minor
Paper Code: HMT192N601
Course Level: 300
Course Credit: 2
Scheme of Evaluation: Theory
L-T-P-C: 1-1-0-2

Course Objective:

The objectives of the course are to make the students explain standard operating procedures of hotel planning, project management and operations

Course Outcomes:

Having completed this module, a student will be able to –

CO 1	**Understand** the fundamental principles of hotel design, space planning, architectural considerations, and facility requirements to ensure efficient and functional hotel layouts.	BT 1
CO 2	**Apply** knowledge of hotel classification criteria, kitchen layout and design, and stewarding operations to plan and organize various operational areas effectively.	BT 3
CO 3	**Analyse** the significance of energy conservation, store management, and workflow optimization in different hotel operations to enhance sustainability and efficiency.	BT 4
CO 4	**Evaluate and Implement** project management techniques, including CPM and PERT, to improve planning and execution while optimizing car parking space as per hotel category requirements.	BT 5

Detailed Syllabus:

Modules	Topics / Course content	Periods

I	**Hotel Design** A. Design Consideration • Attractive Appearance • Efficient Plan • Good location • Suitable material • Good workmanship • Sound financing • Competent Management **Facilities Planning** The systematic layout planning pattern (SLP) Planning consideration A. Flow process & Flow diagram B. Procedure for determining space considering the guiding factors for guest rooms/ public facilities, support facilities & services, hotel administration, internal roads/budget hotel/5-star hotel C. Food factory and smart kitchen planning **Architectural consideration** A. Difference between carpet area plinth area and super built area, their relationships, reading of blueprints (plumbing, electrical, AC, ventilation, FSI, FAR, public Areas) B. Approximate cost of construction estimation C. Approximate operating areas in budget type/5-star type hotel approximate other operating areas per guest room D. Approximate requirement and Estimation of water/electrical load gas, ventilation E. IoT-enabled kitchen layout planning, automated workflow systems	16
II	**STAR CLASSIFICATION OF HOTEL** Criteria for star classification of hotel (Five, four, three, two, one & heritage) **KITCHEN** A. Equipment requirement for commercial kitchen • Heating -gas/electrical • Cooling (for various catering establishments) B. Developing specifications for various Kitchen equipment C. Planning of various support services (pot wash, wet grinding, chef room, larder, store & other staff facilities) **KITCHEN LAY OUT & DESIGN** A. Principles of kitchen layout and design B. Areas of the various kitchens with recommended dimensions C. Factors that affect kitchen design D. Placement of equipment E. Flow of work F. Space allocation G. Kitchen equipment, manufacturers and selection H. Layout of commercial kitchen (types, drawing a layout of a Commercial kitchen) I. Budgeting for kitchen equipment	16

	II. Sustainable kitchen concepts **KITCHEN STEWARDING LAYOUT AND DESIGN** A. Importance of kitchen stewarding B. Kitchen stewarding department layout and design C. Equipment found in kitchen stewarding department	
III	**STORES – LAYOUT AND DESIGN** A. Store layout and planning (dry, cold and bar) B. Various equipment of the stores C. Work flow in store **ENERGY CONSERVATION** A. Necessity for energy conservation B. Methods of conserving energy in different areas of operation of a hotel C. Developing and implementing an energy conservation program for a hotel	16
IV	**PROJECT MANAGEMENT** A. Introduction to Network analysis B. Basic rules and procedure for network analysis C.C.P.M. and PERT D. Comparison of CPM and PERT **CAR PARKING** Calculation of car park area for different types of hotels	16

Semester – VII

Subject Name: 17 Weeks Specialized Internship
Type of Course: Internship
Paper Code: HMT192N721
Course Level: 400
Course Credit: 20
Scheme of Evaluation: Project+Viva

Course Objective:

This course aims to provide students with hands-on industry exposure by integrating theoretical knowledge with practical training in a real-world hospitality environment. Through structured industrial training in a reputed five-star hotel in India or abroad, students will:

- Gain **first-hand experience in one core operational department either** —Front Office, Housekeeping, Food & Beverage Service, and Food Production, enhancing their professional competencies.
- **Industrial culinary innovation exposure**
- Develop **practical skills, adaptability, and problem-solving abilities** by working in a dynamic hospitality setting.
- Understand **industry standards, guest service excellence, and operational best practices** to bridge the gap between academic learning and professional expectations.
- **AI-powered hospitality systems, robotics and automation**
- Cultivate **teamwork, communication, and leadership skills** essential for a successful career in the hospitality industry.
- Reflect on their learning experience through **a structured presentation and daily logbook**, demonstrating their ability to document, analyze, and articulate key insights gained during the training.
- **Chef's table dining, experiential tasting menus**

Semester – VIII
Subject Name: Sales and Marketing Management **Type of Course: Major** **Paper Code: HMT192M801** **Course Level: 400** **Course Credit: 3** **Scheme of Evaluation: Theory** **L-T-P-C: 2-1-0-3**

Course Objective:

This course aims to provide a comprehensive understanding of the principles and practices of marketing communication and advertising. Students will explore key concepts, campaign planning strategies, media planning, and various communication forms, while gaining insights into the functioning of advertising agencies and the ethical considerations involved in the industry.

Course Outcomes:

Having successfully completed this module, a student will be able –

CO 1	**Recall** key concepts of marketing communication and the structure of the Indian media landscape.	BT 1
CO 2	**Explain** the stages involved in advertising campaign planning, creativity, and effectiveness	BT 2
CO 3	**Apply** media planning techniques and identify various forms of marketing communication.	BT 3
CO 4	**Analyze** the structure of advertising agencies and examine legal and ethical issues in advertising.	BT 4

Detailed Syllabus:

Modules	Topics / Course content	Periods

I	**MARKETING COMMUNICATION AND ADVERTISING – BASIC CONCEPTS** • Marketing Communication in Marketing • Communication – Key Concepts • Indian Media Scene	16
II	**ADVERTISING CAMPAIGN PLANNING AND EXECUTION** • Planning Communication Strategy • Advertising Campaign Planning – Strategic Consideration, Creative Consideration • Advertising Creativity : Campaign Planning and Execution • Advertising Research – Role and Trends • Measuring Ad Effectiveness – Definitions and Techniques -	16
III	**MEDIA PLANNING CONCEPTS** • Media Concepts, Characteristics and Issues in Media Planning • Media Selection, Planning and Scheduling • Internet as an Emerging Advertising Media **MARKETING COMMUNICATION FORM** • Managing Sale Promotion • Direct Marketing • Publicity and Public Relation • Social Marketing Communication	16
IV	**STRATEGIES FOR ADVERTISING AGENCIES** • Function and Structure of Ad Agencies • Managing Client Agency Relationship • Strategies for Account Management • Legal and Ethical Issues in Advertising	16

Semester – VIII
Subject Name: Human Resource Management **Type of Course: Major** **Paper Code: HMT192M802** **Course Level: 400** **Course Credit: 3** **Scheme of Evaluation: Theory** **L-T-P-C: 2-1-0-3**

Course Objective:

This course aims to provide students with a foundational understanding of human resource management practices within organizational systems. It covers key areas including recruitment, performance appraisal, training and development, compensation, and employee relations, while also examining current HR trends such as outsourcing, HRIS, and legal frameworks influencing HR practices in diverse organizational contexts.

Course Outcomes:

Having completed this module, a student will be able –

CO 1	**To Recall** the basic concepts, structure, and functions of Human Resource Management in organizational contexts.	BT 1
CO 2	**To Explain** recruitment processes, HRIS, and appraisal techniques used in employee lifecycle management.	BT 2
CO 3	**To Apply** methods of training, development, compensation, and motivation to improve employee productivity and morale.	BT 3
CO 4	**To Analyze** conflict management, collective bargaining, and legal frameworks influencing employee relations.	BT 4

Detailed Syllabus:

Modules	**Topics / Course content**	**Periods**

I	**Human Resources Management** • Context and Concept of People Management in a Systems • Perspective - Organisation and Functions of the HR and Personnel Department • HR Structure and Strategy • Role of Government and Personnel Environment including MNCs.	12
II	**Recruitment and Selection** • Human Resource Information System [HRIS] • Manpower Planning - Selection – Induction & Orientation Performance and Potential Appraisal • Coaching and Mentoring • HRM issues and practices in the context of Outsourcing as a strategy	12
III	**Human Resources Development** • Training and Development Methods • Design & Evaluation of T&D Programmes • Career Development - Promotions and Transfers • Personnel Empowerment including Delegation - Retirement and Other Separation Processes. • Financial Compensation • Productivity and Morale- Principal Compensation Issues & Management • Job Evaluation - Productivity, Employee Morale and Motivation • Stress Management - Quality of Work Life	12
IV	• **Building Relationships** • Facilitating Legislative Framework - Trade Unions - Managing Conflicts - Disciplinary Process • Collective Bargaining-Workers Participation in Management-Concept, Mechanisms and Experiences.	12

Semester – VIII
Subject Name: Revenue and Yield Management **Type of Course: Minor** **Paper Code: HMT192N802** **Course Level: 400** **Course Credit: 2** **Scheme of Evaluation: Theory** **L-T-P-C: 2-0-0-2**

Course Objectives:

To introduce students to the fundamentals of revenue management in the hospitality industry, focusing on yield measurement, strategic pricing, demand forecasting, and the use of revenue management software. The course also highlights team roles and compares applications across sectors like hotels, airlines, cruise lines, and package tours.

Course Outcomes:

Having successfully completed this module, a student will be able –

CO 1	**To define** the concept and applications of revenue management in the hospitality industry	**BT 1**
CO 2	**To calculate** key yield management metrics used in measuring hotel revenue performance	**BT 2**
CO 3	**To identify** and explain strategies for managing room sales during high and low demand	**BT 1**
CO 4	**To analyze** the role and functions of revenue management software and team	**BT 3**

Detailed Syllabus:

Modules	Topics / Course content	Periods
I	**The Concept of Revenue Management** • Hotel Industry Applications • Benefits of the techniques/Areas where this concept is applied/How the concept is applied **Measuring Yield** • Yield Statistic/Determination of Potential Revenue/Potential Average Single Rate/Potential Average Double Rate/ Multiple Occupancy Percentage/Rate Spread/Potential Average Rate/ Room Rate Achievement Factor/Identical Yields/Equivalent Occupancy/Required Non-Room Revenue per Guest	15
II	**Elements of Revenue Management** • Group Room Sales/Transient Room Sales/Food & Beverage Activity/Local and Area-Wide Activities/Special Events **Using Revenue Management** • Potential High and Low Demand Tactics • Implementing Revenue Strategies/Availability Strategies	15

Semester – VIII
Subject Name: Dissertation/Research Project **Type of Course: Research / Dissertation** **Paper Code: HMT192M821** **Course Level: 400** **Course Credit: 12** **Scheme of Evaluation: Theory** **L-T-P-C:**

Course Objective:
This course is designed to enable students to undertake independent, original research by applying research methodology principles. It guides them through identifying a problem, designing appropriate methodology, collecting and analyzing data, and preparing a formal dissertation report. The course fosters critical thinking, ethical research practices, academic writing skills, and effective presentation of research findings.

Course Outcomes:
Having completed this module, a student will be able –

CO 1	**To Identify** and define a relevant research problem through literature review and topic analysis.	BT 1
CO 2	**To Develop** a structured research design and formulate research objectives and hypotheses.	BT 2
CO 3	**To Apply** appropriate methods for data collection, analysis, and interpretation.	BT 3
CO 4	**To Create** and present a well-documented research report with clarity, originality, and academic integrity.	BT 4

Detailed Syllabus:

Modules	Topics / Course content	Periods
I	**Introduction to Research and Topic Selection** • Understanding the Nature and Scope of Research Projects • Research on functional foods, plant-based technology, smart packaging • Guidelines for Dissertation Writing and Formatting • Identification of Research Problem and Area of Study • Review of Literature and Gap Identification	12
II	**Research Design and Proposal Development** • Formulating Objectives and Hypotheses • Designing the Methodology (Qualitative / Quantitative / Mixed) • Research Proposal Preparation and Approval Process • Ethical Considerations and Plagiarism Awareness • **Food blogging, food photography, culinary entrepreneurship**	12
III	**Data Collection and Analysis** • Tools and Techniques for Data Collection • Primary and Secondary Data Handling • Data Coding, Tabulation and Processing • **AI-driven culinary analytics, smart hospitality systems** • Statistical and Thematic Analysis Methods (Software Support Optional)	12
IV	**Dissertation Writing and Viva Preparation** • Structuring the Report: Introduction, Methodology, Results, Discussion, and Conclusion • Referencing Styles (APA/MLA/Chicago) • Final Submission Guidelines • Viva-Voce Preparation and Presentation Skills	12
Total		48

Semester – VIII
Subject Name: Hotel Safety, Security and Engineering **Type of Course: Major** **Paper Code: HMT192M804** **Course Level: 400** **Course Credit: 4** **Scheme of Evaluation: Theory** **L-T-P-C: 3-1-0-4**

Course Objective:

This course aims to equip students with the technical knowledge and practical skills essential for maintaining a safe, secure, and efficiently engineered hotel environment. It emphasizes risk management, safety protocols, engineering operations, and crisis response to ensure seamless and secure hospitality operations.

Course Outcomes:

Having completed this module, a student will be able –

CO 1	**To Identify** potential safety and security hazards in hotel operations.	BT 1
CO 2	**To Explain** the functions of security and engineering departments in ensuring operational safety and efficiency.	BT 2
CO 3	**To Apply** preventive maintenance procedures and safety measures for fire and emergencies.	BT 3

CO 4	**To Evaluate** the effectiveness of hotel engineering and emergency response systems.	BT 4

Detailed Syllabus:

Modules	Topics / Course content	Periods
I	**Introduction to Safety and Security in Hotels** • Importance of Safety & Security in Hospitality • Types of Hazards in Hotels (Physical, Chemical, Biological) • Risk Assessment and Risk Management • Guest Safety and Staff Safety Policies • **Food safety systems and HACCP technology**	12
II	**Hotel Security Operations** • Security Department Functions and Organization • Access Control Systems, Key Control, CCTV Surveillance • Crime Prevention: Theft, Vandalism, Terror Threats • Emergency Protocols: Fire, Medical, Evacuation • **AI-based surveillance and food safety monitoring**	12
III	**Hotel Engineering & Maintenance** • Role of Engineering Department in Hotels • Preventive and Breakdown Maintenance • HVAC, Water Supply, Power Backup, and Lighting Systems • Energy Management Systems (EMS) & Utilities Management	12
IV	**Fire Safety and Disaster Management** • Fire Prevention Systems: Alarms, Detectors, Sprinklers • Types of Fire Extinguishers and Their Use • Disaster Preparedness and Contingency Planning • First Aid, Safety Drills, Training Protocols • **Sustainable operational practices**	12
